FOURTEENTH YEAR.

DULUTH EVENING HERALD.

MONDAY, MARCH 8, 1897.

FIVE O'CLOCK EDITION.

MINNESOTA
HISTORICAL
SOCIETY

THE WEATHER.
Snow tonight and Tues-
day; probably colder;
northeast winds.

TWO CENTS.

Very Large Draughts

Were made the past week on Suits and Overcoats at season-ending, winter stock closing prices, but while many are gone, many remain, and for the week to come these prices should put them on the backs of many men.

\$9.45!

These are \$15, \$14, \$13 and \$12 Suits. Can't get out whole on them at \$9.45, but the price makes business and turns them into cash.

Overcoats and Ulsters Like This.

\$25.00 Overcoats and Ulsters at.....	\$16.29
\$22.00 Overcoats and Ulsters at.....	\$15.99
\$20.00 Overcoats and Ulsters at.....	\$14.99
\$18.00 Overcoats and Ulsters at.....	\$13.99
\$16.00 Overcoats and Ulsters at.....	\$11.99
\$15.00 Overcoats and Ulsters at.....	\$10.99
\$13.50 Overcoats and Ulsters at.....	\$9.75
\$12.00 Overcoats and Ulsters at.....	\$8.99
\$10.00 Overcoats and Ulsters at.....	\$7.75

The men who buy these splendid Overcoats at these prices praise the day we offered them the chance. The spring movement is early, reasonable showings and sellings in Children's Clothing, Hats, Gloves, Shoes and Suits. This store is doing its share in the promotion of prosperity by selling its goods at prices that will make its patrons prosperous.

GERMANY'S NAVY.

Over \$50,000,000 Asked for New Ships.

Berlin, March 8.—When the estimates of the budget committee of the Reichstag was resumed today, Prince Hohenzollern, the imperial chancellor, endorsed the views of the secretary for the navy, vice Admiral von Holtmann, as set forth on Friday last, when the latter stated that the admiralty would still require ten cruisers, five dispatch vessels, two gunboats, five ironclads, two monitors, two floating batteries and twenty torpedo boats, involving an expenditure of \$2,686,600 in 1900, \$2,000,000 in 1901, and \$2,250,000 for 1902. The chancellor added that the time for applying for the necessary assent of the federal government and the Reichstag to the program depended on the general financial condition.

MIDNIGHT COURTS.

Important Decision in a Case in Chicago.

Chicago, March 8.—An important ruling to lawyers was made by the appellate court in the case of Schlesinger & Mayer against Benjamin Allyn & Co. In passing on the questions in this case, Justice Gary holds that it is error for a judge to issue an injunction at his residence, a proceeding which has grown somewhat common among the "Cook county judges" in the last few years. If the present decision is followed, the "midnight injunction" is now a thing of the past, and the lawyers will be compelled to transact business with the courts during open hours. Judge 22 last, Benjamin Allyn & Co. obtained an injunction from Judge Baker restraining Schlesinger & Mayer from building a bridge connecting two buildings near that of the company of the complainants, which the latter alleged would deprive them of light and air. Judge Baker issued the injunction at his home, about 7 o'clock in the evening, and it has been in force ever since. Two weeks ago Schlesinger & Mayer erected the bridge, notwithstanding the injunction, and they were ruled into court for contempt. This present decision obliterates the injunction and renders the contempt rule of no effect.

TOURISTS IN FLORIDA.

St. Augustine, Fla., March 8.—(Special to The Herald.)—Surf bathing in the winter months cannot be appreciated by people living in the states of the North and West, but it is enjoyed to its utmost by tourists at the resorts along the east coast. The close proximity of the Gulf stream to the shores of Florida keeps the waters warm and pleasant. The weather has been delightful thus far this season, the days being bright and warm and the nights clear and balmy. Among the prominent people from Duluth now sojourning at the resorts along the east coast are Mrs. C. A. Tomlinson and Mrs. Thos. D. Merrill. They are registered at the Ponce-de-Leon.

ADMITTED TO PRACTICE.

Washington, March 8.—(Special to The Herald.)—On motion of Congressmen Morris, William C. White, of Duluth, was today admitted to practice before the United States supreme court.

REEVES

Amends His Mine Tax Bill and Makes It More Acceptable.

Several Changes in the Measure Will Be Discussed Later.

Only a Bare Quorum of Minnesota Solons at St. Paul.

St. Paul, March 8.—(Special to The Herald.)—It was nearly 10:30 this morning before Speaker Jones called the house to order, a bare quorum being present, many members having gone home.

Among the new bills were the following:

Davis, requiring probate court process to be served by sheriffs. Judiciary.

Reeves, to amend general laws, 1875, relating to town insurance companies, limiting them to town boundaries. Insurance.

Reeves, to amend general statutes, 1894, relating to town insurance companies. Insurance.

Johns, to authorize cities over 50,000 to cancel public improvement assessments when unjustly made. Municipal corporations.

Schmidt, giving lien on stray logs or floatables picked up within the limits of another state. Logs and lumber.

Schmidt, relating to filing notice affecting titles in register of deeds in county where property is located. Judiciary.

The house then went into committee of the whole for consideration of bills.

Mr. Duntz's bill to amend the constitution so as to require a majority of all electors in any election to carry a constitutional amendment was recommended to pass.

The Reeves mine tax bill came up and Mr. Reeves presented several amendments, which were read, discussed and voted on.

Further consideration was given to the bill for the purpose of amending the constitution, which was postponed.

Mr. Reeves presented several amendments, which were read, discussed and voted on.

PLUM FOR HUBBARD.

Minnesota Man Slated For Minister to Italy.

Washington, March 8.—(Special to The Herald.)—It is reported here today that President McKinley has promised Senator Davis that he will appoint ex-Governor Hubbard, of Minnesota, as minister to Italy. This may prevent ex-Governor Merriam from securing the post he desires, the Austrian mission.

MARINE BANK DIVIDEND.

Creditors Will Get 10 Per Cent at Once.

Washington, March 8.—(Special to The Herald.)—Comptroller DeLoach today declared a first dividend of 10 per cent in favor of the creditors of the Marine National bank of Duluth, on claims proved, amounting to \$177,750.

KIEFER WANTS OFFICE.

He Would Be Commissioner of Immigration.

Washington, March 8.—(Special to The Herald.)—Ex-Representative Kiefer, of St. Paul, today filed his application for commissioner of immigration with President McKinley. He was accompanied to the White House by Senator Davis and Nelson, who are among his intimates.

WAR CLOUD FADES.

Greece's Reply to the Powers Is Pacific.

London, March 8.—The reply of Greece to the identical note of the powers, delivered at Athens on Tuesday last and insisting upon the withdrawal of the Greek troops from Crete and of the Greek fleet from Cretan waters, was received here today. It is a calm and friendly note, and it is believed that the crisis will now soon be ended, as the Greek note at least furnishes a basis upon which a compromise satisfactory to all concerned can be specifically reached.

The stock exchange here and the courses of the continent reflect the confident feeling and continue buoyant.

TURKISH VANDALISM.

Canea, Island of Crete, March 8.—The Turkish officials are allowing the Muslims to despoil the cemetery and the monasteries. Coffins are being thrown open and the remains are being thrown about the streets.

TOWNE'S MOVEMENTS.

St. Paul, March 8.—A Washington special to the Pioneer Press says: One of the silver Republicans, members of the house said today that it was the purpose of the silver men in congress to present a bill to amend the constitution, to President McKinley as one of the representatives on the international bimetallic conference when and where conference is called. Mr. Towne will go to New York in a few days to deliver an address in Carnegie hall on bimetalism. This address will be one of a course on the silver question which was opened by Mr. Bryan in the same hall a few days ago. The lectures are given every day, and the next one on the list will be delivered by Mr. Newlands of Nevada, and Mr. Towne will follow.

The minutes of the provisional organization of the silver Republican party, says the Pioneer Press, are being prepared by Mr. Bryan in Chicago.

ILLINOIS FLOODS.

Much Damage Done by the Kaskaskia River.

Carlyle, Ill., March 8.—The Kaskaskia river is still rising rapidly. The water is now at a stage within one foot of the unprecedented flood of 1882. The suspension bridge across the Kaskaskia at this point is threatened with destruction. Thousands of logs and rafts are lost in the swift current. One hundred thousand bushels of corn, which are stored in cribs in the overflowed district, will be a total loss. Shoal creek, three miles west of here, is three miles wide and is rising rapidly. Many acres of growing wheat have been submerged.

BRIDGES AND CULVERTS GONE.

Vandalia, Ill., March 8.—Reports from all over Fayette county show the damage wrought by the flood to be very great. There is scarcely a bridge or culvert left intact and great chasms have been cut through the public roads and thoroughfares, rendering them impassable. The overflow was the greatest in the Okavaw bottoms since 1882.

NOT A MEDICAL COLLEGE.

Madison, Wis., March 8.—The secretary of state this morning received word of the dissolution of the articles of incorporation of the Wisconsin Electric Medical college. This institution brought by the attorney general to court yesterday, the ground given for its dissolution is not properly fitted to give a medical education.

MARIE VAN SANT IN PARIS.

Paris, March 8.—Marie Van Sant, the American opera singer, has been nominated by the government as an officer of the French academy.

HOLD-UP

Snow Prevents a Desperate Battle on the Omaha Road.

An Attempt to Rob the Duluth Limited Planned in Wisconsin.

Train Load of Armed Deputies Ready to Stop Depredations.

St. Paul, March 8.—(Special to The Herald.)—A Chippewa Falls, Wis., special to the Dispatch says: A snow storm and a heated passenger train were two circumstances that probably prevented a bloody encounter between a gang of bandits and a hundred or more armed deputies last night.

A few days ago the Omaha officials received information to the effect that an attempt would be made to hold up the Duluth "limited," which leaves Duluth for Eau Claire at 5:30 p. m. The place selected for the attempt is a lonely spot in the forest, about three miles north of Hawthorn, the train being due there about 7 o'clock in the evening. Had the Duluth train not been delayed six hours in a snow drift the bandits would have received the warmest reception last night ever accorded a gang of desperadoes here on mischief.

The baggage and mail cars were filled with deputies, armed to the teeth, who were ready to open fire at a moment's notice. The men were quickly taken aboard at Superior Junction, and were given careful instructions by the officials of the road, who were fully informed of the plans of the robbers. It was their intention to flag the train, and, just as soon as it slowed up sufficiently, two men were to secure control of the engine, while the rest of the gang rifled the mail and baggage cars, and went through the passengers in the coaches.

The Omaha officials intended to allow the bandits to carry out their program as to the flagging of the train, but an entire change of scenery had been arranged for the second act, in which it was proposed to drop the curtains on the worst frustrated gang of desperadoes ever planned a robbery.

Nature interfered with the plans of both parties in the nature of a heavy snow storm, which held the train captive at Superior Junction until 2 o'clock this morning.

When it arrived at the scene of the proposed robbery, the bandits had been taken their departure, having evidently abandoned the attempt for the night. The passengers knew nothing of what was in store for them until the danger point was passed, when the story leaked. It is understood that one of the gang furnished the officials with the entire plan which the robbers had adopted. No details can be learned from employees of the road, who profess to be in ignorance of the attempt.

WESTERN LEAGUE.

Annual Meeting in Progress at Detroit.

Petroit, Mich., March 8.—The membership of the Western base ball league was fully represented at the annual schedule meeting which began in secret session at the Russell house this afternoon. There are present B. E. Johnson, of Cincinnati, president of the league; president W. F. Galt, and Manager Watkins, of the Indianapolis club; President M. K. Killilea and Manager Connie Mack, of Milwaukee; President R. H. Leadley and Manager E. J. Glenavlin, of Grand Rapids; President James Manning of Kansas City; President and Manager Charles Comiskey, of St. Paul; Vice-President Charles Goodnow, of St. Louis; and M. P. Haynes, of Minneapolis, and President G. A. Vanderbeck, of Detroit.

The minutes of the meeting held at Chicago, Nov. 15, were read and approved. The members of the schedule committee, Messrs. Manning, Sautsbaugh and Vanderbeck each presented the schedule, which they had prepared separately, but it was found that an entire rearrangement was necessary, as Indianapolis refused to play Sunday games and it was deemed inadvisable to adopt any schedule which may be subject to numerous changes during the season. The subject was referred back to the schedule committee, and after considerable discussion of railroad rates, routes, etc., the meeting adjourned until 8 o'clock this evening. The schedule committee meanwhile are working to get together upon a report.

CLOAKMAKERS' STRIKE.

New York, March 8.—Five hundred cloakmakers, in addition to those who went on strike yesterday, quit work today. An increase of 25 per cent in the regular price list is asked.

TUESDAY and WEDNESDAY'S

BARGAINS

 cured by CUTICURA.

New Gold Company.
The new Rainy Lake corporation has been formed, and its articles of incorporation were filed with the state on Saturday afternoon. The title of the new company is the Gold Lands Development Company, and it is authorized to own and develop lands in the Rainy Lake area. The company's capital stock is \$1,000,000, and the nominal incorporators are Charles E. Preston, president; J. J. McAuliffe and Fred W. Smith. There are other people back of the company, however, and in connection with the company owned at present. The company already has about 500 acres near Bad River on the north shore of Rainy lake, on the same rich formation that on which W. A. Preston's proposition is based.

There is nothing superior to Salvo Oil for the relief and cure of rheumatism of all kinds. Its effect is mar-

long my throat was filled with sores, large lumps formed on my neck, and a horrible ulcer broke out on my jaw,—says Mr. O. H. Elbert, who resides at cor. 22d St. and Avenue N., Galveston, Texas. He had three times pronounced cured by prominent physicians, but the dreadful disease always returned; he was then told that

was the only cure. His bad luck had all fallen upon him, and he was in a sad plight. After taking one bottle of Sarsaparilla, he began to improve and two dozen bottles cured him completely, so that he was more than six months free from the disease, and is now the owner of a Book on the disease and its treatment mailed

Company A the Winner.
Company A and Company G had an indoor baseball game Saturday morning at the armory and Company A won by a score of 15 to 7. It was a novelty for the spectators, being the first time the game has been played in the lakes. The teams lined up as follows:

Company A	Company G
Harsh	catcher
Chapman	pitcher
Widgah	first base
McCormick	second base
Smith	third base
Straman	left shortstop
Shinclear	right shortstop
McClure	right field
Dennis	left field

Minnesota House and Senate Put in a Very Active Day.

Scott's Bill Abolishing Certain City Officials Recommended to Pass.

Senate Listens to a Bill Establishing a Woman's Reformatory.

St. Paul, March 9.—(Special to The Herald.)—The Douglas bill creating state drainage inspection, was reported to the house with an amendment by the committee on general legislation and as amended was recommended to pass. The amendment strikes out the permanent appropriation feature, providing for this and next year only.

Mr. McGill's bill to transfer the unexpended balance in the text book fund to the general revenue fund, was favorably reported.

Mr. Scott's bill to abolish city treasurers and auditors in cities of over 50,000 and require the county treasurer, auditor and attorney, to perform their duties, was recommended to pass, and to be referred to the committee on general legislation.

Mr. Scott's bill to amend laws of 1878 relating to powers of district courts, was recommended to pass. This bill allows the naturalization of citizens in the city of Duluth, and the city of Duluth is made general in its provisions. The bill is made general in its provisions. The bill is made general in its provisions.

A recess was then taken till 2 o'clock.

IN THE SENATE.
St. Paul, March 9.—In the senate today Senator Johnson introduced the bill to amend the constitution of the state, providing that the institution shall be located within fifty to seventy-five miles from the city of Duluth, and that the institution shall be located within fifty to seventy-five miles from the city of Duluth, and that the institution shall be located within fifty to seventy-five miles from the city of Duluth.

The following bills were passed: S. F. 231, relating to public libraries in incorporated cities; S. F. 232, to authorize the secretary of state to make contract for the publication of the laws of the state; S. F. 233, to create an additional judge for the Twelfth judicial district.

UPON A WORD.
Hangs the Ownership of \$1,000,000 in Realty.
San Francisco, March 9.—The ownership of \$1,000,000 worth of land in California depends upon the legal construction of a word. And a very simple word it is—the little familiar word "brought," but a legal battle came on in the United States circuit court before Judge Morrow over the meaning of that word as it is used in an act of congress approved on March 3, 1891. The act provides that no suit shall be brought by the United States to vacate or annul any patent to public lands issued before the date mentioned within five years from the passage of the act.

HEADQUARTERS IN DULUTH.

Silver Republicans May Locate Headquarters Here.

Washington, March 9.—(Special to The Herald.)—The headquarters of the Silver Republican party may be located in Duluth within a very short period. It is said today that C. A. Towne has about decided to locate the headquarters of the organization, of which he is the head, in Duluth. He is of the opinion that the work can be conducted just as well from Duluth as from Washington, Chicago or any other point.

THEY CANNOT AGREE.

Davis and Nelson Dispute as to Merriam.

Washington, March 9.—(Special to The Herald.)—The prospects today are that Senators Davis and Nelson are apt to get into a big row over the distribution of Minnesota patronage. The two senators are in dispute as to whether Merriam, Davis, is or is not entitled to the patronage of the office of the United States marshal at Duluth. Davis claims that Merriam is entitled to the patronage, while Nelson claims that he is not.

A GOOD INDIAN.

Old Chief Washakie of the Shoshones is Dying.

Fort Washakie, Wyo., March 9.—Chief Washakie, the noted head of the Shoshone Indians, is dying. The chief is 80 years old and has spent the most of his life in the service of the United States. He has been a friend of the whites and has on many occasions prevented the young warriors from carrying out their long-cherished desire to make a war of extermination against their old enemies, the Arapahoes, who occupy the same reservation.

BRAZIL'S REVOLUTION.

Situation in Bahia Becoming More Serious.

Paris, March 9.—According to dispatches received here from Rio de Janeiro, the situation in Bahia, Brazil, is becoming more serious. Col. Castro, director of the monarchist newspaper, La Libertad and Gazeta da Tarde, whose offices have been pillaged and destroyed, has been ordered to leave the city. The offices of the Journal do Commercio and Mensagem de Brazil are also in danger.

WOLCOTT'S TRIP.

He Talks to the President About It.

Washington, March 9.—Senator Wolcott of Colorado, last evening called at the White House and remained nearly all the evening. The time was devoted to a discussion of the sugar trust and the situation in Colorado. Senator Wolcott told the president of his trip abroad and of the results of his mission.

LEXOW REPORT.

The Sugar Trust Said to Be a Benefit.

Albany, March 9.—The report of the joint committee on trusts, which held several sessions in New York city last month, was submitted to the legislature today. It is understood that the committee has found that the sugar trust is a benefit to the state and that it should be maintained.

HUNT'S CHIEF COMPETITOR.

Washington, March 9.—(Special to The Herald.)—It appears today that the strongest competitor of L. P. Hunt, of Montpelier, for the position of public printer is John L. Kennedy, of New Jersey. It is said that Kennedy, next to Hunt, has the best endorsements for the place yet presented.

A DULUTH INVENTION.

Washington, March 9.—(Special to The Herald.)—A patent for a combined heating and cooking stove was today issued to Frederick W. G. Botcher, of Duluth.

LEEDY'S LENGTHY VETO.

St. Paul, March 9.—Governor Leedy vetoed the railroad bill in a lengthy message of about 4000 words.

THE TREASURY CONDITION.

Washington, March 9.—Today's statement of the condition of the treasury shows: Available cash balance, \$211,383,848; gold reserve, \$150,845,051.

CABINET

First Formal Meeting of President McKinley and His Cabinet.

Washington, March 9.—President McKinley and his cabinet held their first formal meeting at 11 o'clock today. As a rule cabinet day has been one reversed for the business before the president and his advisers not only as against the general public, but also as against the members of the cabinet. Today, however, there was the usual early rush of prominent men, many of whom were received by the president.

Several Notable Groups of Callers Received at the White House.

Washington, March 9.—President McKinley and his cabinet held their first formal meeting at 11 o'clock today. As a rule cabinet day has been one reversed for the business before the president and his advisers not only as against the general public, but also as against the members of the cabinet. Today, however, there was the usual early rush of prominent men, many of whom were received by the president.

Swedish Mission May Occasion a Rather Warm Personal Hunt.

Washington, March 9.—President McKinley and his cabinet held their first formal meeting at 11 o'clock today. As a rule cabinet day has been one reversed for the business before the president and his advisers not only as against the general public, but also as against the members of the cabinet. Today, however, there was the usual early rush of prominent men, many of whom were received by the president.

BETTER WEATHER.

Corbett the Great Favorite at Carson Nowadays.

Carson, Nev., March 9.—The weather is pleasant today, but on account of the mud traveling is very disagreeable. The curious visitor who calls at the camp of Fitzsimmons does so generally at the price of a suit of clothes. The road to Corbett's camp is somewhat better, but in any other part of the world would not be classed as a road at all.

A TOUGH CROWD.

But the Trial Will Be Very Sensational.

Appleton, Wis., March 9.—Developments in the shooting at Kaukauna of Mrs. Nellie Ross, who was instantly killed, Katie Dupey mortally wounded and Fred Shaban seriously hurt, show that the case will prove one of the most sensational in the history of this part of the state.

POSTAL CLERKS.

Two Hundred on a San Francisco Excursion.

Chicago, March 9.—Two hundred railway postal clerks who arrived here from North, South and East, left Chicago in a special train, over the Burlington road today to attend the annual convention of men of their vocation in San Francisco. They will be away eighteen days, returning to Chicago March 27.

WOODMEN OF THE WORLD.

St. Louis, March 9.—The second biennial convention of the Woodmen of the World, was called to order this forenoon with about fifty delegates present from nearly every state in the union. Joseph Cullen Root, secretary of the order, presided and founder of the order, was in the chair. There is much important business to come before the order and it is generally understood that some of the working laws will be changed.

SAVED HIS NECK.

St. Louis, Mo., March 9.—Word was just received that Governor Stephens has commuted the sentence of John Schmidt, sentenced to hang tomorrow at Clayton, for the murder of Bertram Atwater, a Chicago artist, to twenty-five years' imprisonment in the penitentiary. John's cousin "Cotton" Schmidt, a mere lad, and a negro, were hanged last month for complicity in the murder.

GAGE'S CALLERS.

Many People Visited the Treasury Department.

Washington, March 9.—Secretary Gage had another busy day in receiving callers. The ways and means committee of the house, headed by Mr. Dingley, of Maine, called in a body about 11 o'clock and were presented to the secretary. Senator Teller, Senator Cullom and Representative Hitt were among the morning callers who desired to pay their respects.

It now seems improbable that any considerable number of treasury nominations will be sent to the senate tomorrow. There are five or six vacancies in the offices of the collectors of internal revenues, and one or two places of a more or less confidential character in the secretary's office which probably will be filled first. The chief clerk and the appointment clerk are usually always changed very soon after a new secretary is installed, and it is probable that the usual course will be pursued in this instance.

Both of these positions are under the civil service rules, so they will have to be filled by promotions or under rule ten, which makes an exception in favor of ex-soldiers or sailors. In their case the rules permit reinstatements, irrespective of the length of time they were out of the service. In all cases the one year rule applies. The assistant secretaries probably will be changed within the next few days.

SCHEDULES TO BURN.

Western Baseball League Arranging the Games.

Detroit, Mich., March 9.—The Western league managers are today disputing over the question as to whether the season shall open East or West. Another session was begun at 11 o'clock today. There were "schedules to burn," as some members of the committee expressed it, but the committee reported that it was unable to get to the bottom of the matter. The Eastern men claiming that the West furnished a very poor article of weaving, and that the Eastern men were not disposed to concede this. There were also differences regarding holiday dates.

After hearing the suggestions from all present, the committee was sent back with instructions to agree upon a schedule report, if possible, by 2 o'clock, to which hour the managers adjourned.

R. H. Leadley, of Grand Rapids, was appointed an additional Eastern member of the committee, and President Johnson is in session with four committeemen, as referee, to decide questions upon which they may tie.

BETTER WEATHER.

Corbett the Great Favorite at Carson Nowadays.

Carson, Nev., March 9.—The weather is pleasant today, but on account of the mud traveling is very disagreeable. The curious visitor who calls at the camp of Fitzsimmons does so generally at the price of a suit of clothes. The road to Corbett's camp is somewhat better, but in any other part of the world would not be classed as a road at all.

A TOUGH CROWD.

But the Trial Will Be Very Sensational.

Appleton, Wis., March 9.—Developments in the shooting at Kaukauna of Mrs. Nellie Ross, who was instantly killed, Katie Dupey mortally wounded and Fred Shaban seriously hurt, show that the case will prove one of the most sensational in the history of this part of the state.

FRENCH INVASION.

Which the British Lion May Probably Resist.

Brass, West Coast of Africa, March 9.—News which recently reached here that a French force numbering 600 men, under white officers, was occupying the town of Bessess, has been confirmed. The officials of the British Niger company are considering the question of sending by force this incursion into territory which has long been recognized as being within the British sphere.

A DRAINAGE LEXOWING.

Springfield, Ill., March 9.—The Chicago drainage board will be investigated by a special committee from the legislature and compelled to show what was done with the \$2,000,000 expended in the drainage canal. Revell's resolution calling for the appointment of an investigating committee was adopted today.

OLD METHODIST DEAD.

Madison, Wis., March 9.—Charles Swift, a former Methodist clergyman, and for several years a poor wanderer, was found dead at his home in Madison this morning. He was quite aged and had suffered from heart trouble for several years. The body will be buried at Janesville, where he formerly resided.

WOMEN ARE ELEGIBLE.

Madison, Wis.—The assembly has passed the Mills bill which permits the appointment of women on school boards in cities of the third class.

FIGHTING

Turks and Cretans Indulge in Some Quite Severe Fighting.

Powers are Expected to Immediately Expel the Greeks From Crete.

Italian Cruiser Shells—An Insurgent Party—Day's Developments.

Canoe, Island of Crete, March 9.—There was renewed fighting last evening between the Turkish troops and the Cretan insurgents around the camp of the latter on the heights of Akrotiri, near here, the position which was bombarded by the warships of the powers on Feb. 21. The result of the engagement is not known, but the Greek flag is no longer visible this morning above the insurgent's positions.

In addition to ordering the Greek vessels to leave the island, Admiral Canevaro, the Italian officer, who, by reason of seniority, is now senior to the combined forces of the fleet, has ordered the Greek newspaper correspondents and all the other Greeks to leave Crete immediately.

The cord of Turkish troops drawn around Akrotiri is now being attacked by the insurgents. Severe fighting is proceeding. The fighting between the insurgents and the Turks commenced at 2 o'clock this morning and continues all along the line. Communication by road with Suda Bay is cut off.

A Turkish transport, with civil officials and troops, and arrived here with mailboxes on board.

POWERS TO ACT.

May Expel All the Greeks From the Island.

London, March 9.—It was stated this afternoon in official circles that the renewal of fighting between the insurgents and the Turks in the Island of Crete will compel the powers to immediately take measures to expel the Greeks from the island. The general impression in competent quarters is that the powers will not accept the proposals of Greece, and that they will carry out their threat of coercing Greece if necessary.

It is believed, however, that the Greek reply is only intended to soften the shock of surrender to the excited Hellenes, and that after a brief prelude of position, the government of Greece will discover the futility of opposing the will of united Europe, always supposing that Europe is united in this matter and the compliance of Greece will follow.

SHELLED THE INSURGENTS.

Canoe, March 9.—Admiral received here from Hierapetra say that owing to the refusal of the Mussulman to surrender the fort there, the insurgents attacked it, whereupon the Italian cruiser shelled the insurgents.

ANXIETY AT ATHENS.
Athens, March 9.—There is intense anxiety here relative to the action the powers will decide to adopt in the face of the reply of the Greek government. In any case, it is not believed here that the proposed blockade of the Greek coast will begin before the end of the week.

SENATE CONTROL.

Democratic Senators Want to Accomplish It.

Washington, March 9.—The Democratic senators were in caucus for an hour and a half today considering the advisability of offering a coalition with the silver Republicans and Populists for the repeal of the Sherman law. The meeting resulted in nothing beyond a general exchange of views and the authorization of Senator Corman, chairman of the caucus, to appoint a new steering committee to consider the situation in light of its hearings and report to a future conference.

The new caucus attendance of Democratic senators, though Senator Lindsay was the only good Democrat who was present. Neither Senator Gray nor Senator Gaffney was there, but it was not believed by those present that their absence had any significance.

SHOULD HAVE PASSPORTS.

Washington, March 9.—United States Minister Ferrell, in a communication to the state department from Constantinople, incloses a note from the minister of foreign affairs, calling attention to the necessity for Americans traveling in Turkey to provide themselves with passports.

ORE POOL MEETING.

Cleveland, March 9.—The ore pool has postponed its meeting to next week Tuesday. It is said that an agreement will probably be reached and a continuation of the pool. The meeting was to have been held this week, but the committee has been discussing differences and more time. Iron manufacturers report increased activity.

A CANTON ASSIGNMENT.

Camden, March 9.—C. C. Snyder, one of the oldest lawyers in the city, engaged in the hardware trade, assigned this morning. Slow collections and general business of the city, assigned. The assets are estimated at \$60,000; liabilities, not estimated. Charles S. Harrison, of Mansfield, Ohio, a nephew, was nominated assignee.

ARBITRATION MEETING.

Springfield, March 9.—The state board of arbitration today notified the Chicago tannery employers and employees that the board will convene in Chicago March 18 for the purpose of arbitrating existing differences.

Notice is hereby given that application has been made in writing to the common council of said city of Duluth, and filed with the city officers, praying for license to sell intoxicating liquors for the term commencing March 22, 1887, and terminating on the 22d day of March, 1887. Wheaton at No. 205 Lake avenue south.

Such application will be heard and determined by said common council of the city of Duluth, at the regular meeting of said city of Duluth, in St. Louis, Minnesota, on Monday, the 22d day of March, 1887, at 7:30 o'clock p. m. on that day.

Witness my hand and seal of said city of Duluth, this 23d day of March, A. D. 1887.

C. E. RICHARDSON,
City Clerk.

OFFICE OF HEARING ON CLAIMS.—
County of Minnesota, County of St. Louis

Probate Court, Special Term, March 23, 1887.

In the matter of the estate of James D. ...

Moore, of said county, and ordered, that all claims and demands against said estate be presented to the probate court in Duluth, in said county, on Monday, the 10th of September, A. D. 1887, at 10 o'clock, a. m.

And further ordered, that six months be allowed for the presentation to present their claims against said estate, at the expiration of which time claims not presented to said court, shall be barred, unless, for cause, shown, at that time be allowed.

And further ordered, notice of the time and place of the hearing and examination of said claims and demands shall be given by publishing this order once in each of the newspapers published in said county the day appointed for such examination, to wit in the Duluth Evening Herald, a newspaper published and published in Duluth, in said county.

And at Duluth, the third day of September, A. D. 1887.

By the Court.

ra, second floor, 18 West Superior
St. James MacDowell, M. W.; J. H.
rs, recorder.

ISHED ROOMS, BOARD IF DE
The Daotah, 117 West Second

Moore, of said county, and ordered, that all claims and demands against said estate be presented to the probate court in Duluth, in said county, on Monday, the 10th of September, A. D. 1887, at 10 o'clock, a. m.

And further ordered, that six months be allowed for the presentation to present their claims against said estate, at the expiration of which time claims not presented to said court, shall be barred, unless, for cause, shown, at that time be allowed.

And further ordered, that notice of the time and place of the hearing and examination of said claims and demands shall be given by publishing this order once in each of the newspapers published in said county the day appointed for such examination, to wit, in the Duluth Evening Herald, a newspaper published in and for said county, in said county.

And at Duluth, the third day of September, A. D. 1887.

By the Court.

ERGER & JOHANSON,
Attorneys for Executor.
Evening Herald, March 3-10-17.

WEST END

Claim That W. H. Smith Is Not a Freeholder Is Not True.

Says He Has a Clear Title to Sixteen Lots in Ironton.

The Ironton Plant Has Met With Another Complication Which Delays Starting.

When the city council votes on the confirmation of W. H. Smith as a member of the board of public works, next Monday night, it will be found that he is a freeholder, and therefore that his claim can be set up alleging his ineligibility on that score. It seems that Mr. Smith, a long time ago, bought sixteen lots in Ironton on a contract, and while he was the owner of the property, he had no deed to it on record. His payments have all been made as called for by the contract, and he has procured a deed to the property, and at once had it recorded by the register among Mr. Smith's friends that his opponents intended to attempt the defeat of his confirmation on the freeholder ground that he was not a freeholder. Several of them volunteered to sell him lots at the nominal price of \$1 each. While he was naturally pleased at these substantial exhibitions of friendship, he has not found it necessary to avail himself of them.

ANOTHER DELAY. Residents of the West End are naturally becoming impatient at the repeated delays in the starting of the Ironton Steel plant. Several times recently everything has appeared to be in readiness for beginning operations, when some obstacle would prevent itself that would prevent the movement of the machinery. A few days ago steam was made in the boilers, and all preparations apparently complete for the starting of the plant. It was found that an immense screw would not work in the nut, and everything had to wait until a new brass nut could be made. Now those employed about the works have ceased preparing, as when a start is likely to be made.

MACCABEE'S SOCIAL. Duluth Hive No. 1, Ladies of the Macabees, celebrated the third anniversary of the organization of the lodge with a musical and literary entertainment in Great Eastern hall, last night. The attendance was most numerous. A good sum was added to the lodge treasury. Pearl H. H. Cole, who also entertained last night with an apron and necktie social at A. O. U. hall.

WEST DULUTH BRIEFS. The municipal election in Proctor, Minn., resulted in the following: John Bentner, recorder; R. J. Harper, treasurer; Bert Simpkins and John Doyle, trustees. Street Cider, James of the peace, P. F. Kelly and George Jacques; constables, Daniel Flynn and Michael O'Brien.

The second annual musical entertainment of the Swedish Mission Choral society will be given at the church, corner of Twentieth avenue west and Second street, tonight. The society has been preparing for this occasion for some time, and a program of exceptional interest is promised.

Mrs. John Neave, who returned from Ottawa yesterday, will remain here for a short time, when she will remove to Saginaw, Mich., to reside with her mother.

The funeral of Mrs. Jennie Scarlett, who died Monday, at the home of her son, on Sixteenth avenue west, was held at Asbury M. E. church, yesterday afternoon. The services were conducted by Rev. Robert Green, pastor of the Christian church. The interment was made in the cemetery at Oneota.

West Duluth Covered Rink. Music tonight by City band.

NEW-YORK STOCKS. A Quiet But Generally Firm Opening Recorded.

New York, March 11.—The stock market opened quiet and generally firm. Sugar was in fair request. Improved % on short covering. Railway shares were without feature, but the international shares displayed decided firmness in sympathy with higher cables. Realizations accruing from the recent sharp advance in tobacco caused a break of 1½ per cent, but without effect on the general market. The general lack of disquieting news from abroad and the favorable character of the statements of many of the principal roads for the first week in March contributed to the general firmness. London operations were unimportant and the fluctuations were exceedingly narrow up to 11 o'clock.

Dulness was the characteristic of the stock speculation with operations almost entirely centered up to noon in a few specialties. Consolidated Gas rose 2 points on Albany rumors regarding the outlook for the proposed merger regulating the charges for gas.

Lake Shore and the other Vanderbilt shares were also in some respect on a slightly higher basis. The industrial showed no essential change in prices and the anthracite coals were neglected.

Considerable interest was manifested at the progress of developments regarding the tariff as affecting industries. The bond market was dormant, but good undertone was apparent, although some marked losses were recorded in the inactive issues. Sales to noon, \$5,000 shares.

FOR ABUSE OF ALCOHOL. USE HORSFORD'S ACID PHOSPHATE. Dr. W. E. Crane, Mitchell, South Dakota, says: "It has proven absolutely specific for this disorder. It checks the vomiting, restores the appetite, and allays the fear of impending dissolution that is so common to heavy drinkers."

THE PRODUCE MARKET.

Commission men are feeling good all along the Michigan street line this week. The season's consignments are coming in early, and spring prices are 2 to 4 cents higher than last year, and the volume of business is much greater.

Changes in values are not numerous. Eggs tumbled down several notches and onions are strong at a slight advance. Apples are slightly higher and other in sympathy.

DU LUTH QUOTATIONS. Note—The quotations below are for goods which change hands in lots on the open market in filling orders, in order to secure best goods for shipping and to cost incurred, an advance over jobbing prices has to be charged. The figures are changed daily.

Minc, per doz. 2 @ 2 1/2

There was a fair amount of trading on the Duluth board, and a shade lower at the receipting office. Figures on the farm reserves, \$5,000,000, which are the smallest with the exception of 1888, of any in recent years, but which put only a fraction on the price on yesterday's crop, and which, according to private cables, were not given even that much credit abroad. Consols showed an advance and Northwest receipts were liberal, Minneapolis and Duluth reporting a total of 325 cars against 37 last week.

Kind of on the corresponding day of the year before. Predictions of rain, followed by a cold wave tomorrow, gave rise to fears of a cold wave and action of the market after its early rally. It began to yield very slowly for the while, but soon went back to its old position with very rapidity. The price of wheat was 1 1/2 cents higher and accordingly rumors of war were heard and listened for.

THE DULUTH EVENING HERALD: THURSDAY, MARCH 11, 1897.

Wheat Went Down With a Rush, Being Weak All Day.

Traders Disappointed With Reception Given Figures on Farm Reserves.

Consols Also Showed an Advance and Northwest Receipts Liberal.

Wheat opened easy and a shade lower. Traders were considerably disappointed at the receipting office. Figures on the farm reserves, \$5,000,000, which are the smallest with the exception of 1888, of any in recent years, but which put only a fraction on the price on yesterday's crop, and which, according to private cables, were not given even that much credit abroad. Figures on the farm reserves, \$5,000,000, which are the smallest with the exception of 1888, of any in recent years, but which put only a fraction on the price on yesterday's crop, and which, according to private cables, were not given even that much credit abroad. Consols showed an advance and Northwest receipts were liberal, Minneapolis and Duluth reporting a total of 325 cars against 37 last week.

Kind of on the corresponding day of the year before. Predictions of rain, followed by a cold wave tomorrow, gave rise to fears of a cold wave and action of the market after its early rally. It began to yield very slowly for the while, but soon went back to its old position with very rapidity. The price of wheat was 1 1/2 cents higher and accordingly rumors of war were heard and listened for.

There was a fair amount of trading on the Duluth board, and a shade lower at the receipting office. Figures on the farm reserves, \$5,000,000, which are the smallest with the exception of 1888, of any in recent years, but which put only a fraction on the price on yesterday's crop, and which, according to private cables, were not given even that much credit abroad. Consols showed an advance and Northwest receipts were liberal, Minneapolis and Duluth reporting a total of 325 cars against 37 last week.

After Twenty Years. Sad State of Affairs in the Kalka Family.

Rosa Kalka, aged 43, has begun divorce proceedings against John Kalka, aged 52, whom she married in June, 1896, at Stillwater. They have three children, two girls of 18 and 13 and a boy of 8. The plaintiff alleges non-support, habitual drunkenness, cruelty and desertion. She alleges that her husband not only used all the money he earned and often took what was left of it to buy liquor, she alleges that he had a mistress, and that on one occasion, just before he left her, he drove her and the children out of the house and covered the cashbox of the house with a blanket.

B. F. Bowman has sued F. T. Merriman for the foreclosure of a mortgage for \$300 on a West Duluth lot. George Hill and John C. T. Merriman are the attorneys.

A. B. SIEWERT & CO.

Successors to KILGORE & SIEWERT, Lonsdale Building.

THE NEW FIRM

Will endeavor to serve you well. Here we are with New Goods and New Energy.

We beg to call your attention to the Low Prices we shall quote during our Dissolution Sale in order to dispose of such goods as bear the name of Kilgore & Siewert.

Dissolution Sale begins Monday Morning, March 15th. Watch for further announcement.

A. B. SIEWERT & CO.

304 West Superior Street.

THEY MUST BE SOLD...

Remnants That Accumulated during our Clean-up Sales.

We are going to put a price on them that will sell every one. We do not want a single remnant in the house tomorrow night—all must be sold. Some of these remnants contain enough material to make a full dress. They are in the way; we want the shelf room they occupy for our Spring Stocks, and—

We have marked them at prices That will sell them quick!

Remnants of Dress Goods, Silks, Velvets, Linings, Wash Goods, White Goods, Table Damask, Red Damask, Crash, Embroideries, etc., all marked at the Smallest of small prices.

POPE & SETTLE

THE JURY DISAGREED. A TEMPERANCE LESSON.

No Verdict in the Case Against Lewis Faughnan. One is Found in Leonard Fowler's Death.

The case against Lewis Faughnan, who with Bert Woods was accused of robbery in the first degree, was given to the jury at 3:30 yesterday afternoon. Once before court adjourned the jury came in for further instructions from the court, but after that it remained out and passed a night in deliberation in the jury room. This morning the jury reported to the court that it was unable to agree and that it would be necessary to do so after further deliberations. The case was stated to the jury by the court, and the jury was told that the ten were in favor of conviction and the two in favor of acquittal. After the Faughnan case was given to the jury the case against Bert Woods was taken up, and it was found on trial of the state is very similar to that in the Faughnan case. Yesterday afternoon Mr. Arthur, who is conducting the state's case, and C. O. Baldwin, who is defending Woods, had a little argument over some action of Arthur's which Mr. Baldwin did not believe to be fair. In relating the episode the morning paper took occasion to remark that relations between the two attorneys were "strained."

This morning Mr. Arthur arose and informed the court that their relations were not strained in the least, notwithstanding the morning paper. Mr. Baldwin affirmed this, and after a little jolting match the attorneys shook hands over the bloody chasm, in a figurative sense, greatly to the relief of the jury.

AN OCEAN ACCIDENT.—Queensport, March 11.—The Red Star steamer Pennland last night reported she had spoken the British steamer West Indian, Capt. O. Campbell, on Feb. 19. The West Indian was throwing rocket signals. She had been in collision and water in her engine rooms had drowned her crew. Two other vessels were standing by her, however, the Pennland proceeded, merely reporting the facts here.

"AWAY WITH MELANCHOLY."—And bid dull care away, sounds very like a cry of distress. If you have a case of the "blues" caused by indigestion, with a nervous system, a more speedy relief than by any other medicinal agent, is a vigorous one by this fine tonic. A wineglassful three times a day.

QUEEN VICTORIA'S TRIP.—Cherbourg, March 11.—Queen Victoria accompanied by Princess Beatrice and their suites, arrived this morning from Portsmouth on board the Royal yacht Victoria and Albert and left immediately for Nice and Genoa.

SELL REAL ESTATE.—By means of an Evening Herald "want ad."—Address P. O. Herald.

EXCUSED

Foreman and One Member of the Grand Jury Let Off Today.

This Indicates That the Jury Has a Long Session Ahead.

Investigating Timber Depreciations on School Lands of the State.

The grand jury very plainly has no idea of adjourning at the present time, for two of its members asked to be released from further duty this morning, and they would not have been likely to do so had there been a prospect of their doing so within a short time. W. P. Mosher, who was appointed foreman of the jury by Judge Ensign, asked to be excused because of the pressure of business. Judge Cant granted his request, and also was excused except for the visit for the purpose of preferring these requests, the grand jury has not been before the court since it returned the indictment against Willis J. Holmes. There being no session yesterday, the jury had no session yesterday, either. There was a quorum this morning, however, and a number of witnesses were examined. It is understood that there has been going on for some time considerable stealing of timber from the school lands, and the grand jury is looking into that with a hope of being able to bring to justice the authors of some of these depredations.

RICE LAKE LIBEL CASE.

Trial of it Taken Up This Morning.

Judge Ensign's was the only branch of the district court engaged upon civil business this morning. Judge Mosher being engaged at home in fighting an attack of grip with its accustomed collection of aches, pains, and fever. Judge Ensign this morning took up the case of Martin Miller against Jasper Woods, which Miller seeks to recover \$3000 damages for libel, because the defendant upon three separate occasions, by means of the press, had published statements which were untrue, and which Miller burned the school house at Rice Lake.

In November, 1904, school house at Rice Lake, in which suburb of Duluth the parties live, was burned under somewhat mysterious circumstances. A year or so later, according to Miller's complaint, Wald told a neighbor that Miller burned the school house, and on two other occasions he made the same statement in the hearing of several parties, including the defendant. Judge Ensign this morning took up the case of Martin Miller against Jasper Woods, which Miller seeks to recover \$3000 damages for libel, because the defendant upon three separate occasions, by means of the press, had published statements which were untrue, and which Miller burned the school house at Rice Lake.

A jury was drawn this morning to try the case, which is still on trial at noon. Bertha Hamblin, who is the wife of the defendant, was called to the stand and testified that she had heard Wald make the statement that Miller burned the school house, and that she had heard him make the same statement on two other occasions. The plaintiff's attorney desired to call the defendant for cross-examination, but the court refused to do so, on the ground that a subpoena was issued for him.

SAFE AT LAST.

Fearful Experience of an Atlantic Cattle Ship.

Liverpool, March 11.—The Beaver line steamer Lake Winnipeg, Capt. Tawtor, twenty-five days out from St. Johns, N. B., arrived here yesterday. Tawtor reports having had a terrible voyage, his vessel had a large quantity of water on board, and the passengers had to be called upon to help in clearing and drying the cargo, which had been shifted during the voyage.

A CHINESE CONSUL.

Tries to Explain His Visit at Washington.

Washington, March 11.—Fung Yung Hand, the Chinese consul general at San Francisco, said today in explanation of his presence here at this time that Yang Yu, the Chinese minister, was an old friend of his, and that he desired to see him and bid him good-bye previous to his departure for St. Petersburg, and also to talk over certain matters in China in which both were interested. Since arriving here, however, he had heard that members of the See Yoo society at San Francisco were on their way to Washington to lay certain matters before Minister Yu, and he had decided to prolong his visit until their arrival. Since arriving here, however, he had heard that members of the See Yoo society at San Francisco were on their way to Washington to lay certain matters before Minister Yu, and he had decided to prolong his visit until their arrival.

INDIAN SCHOOL.

Ex-Gov. Burke Talks to the Carlisle Scholars.

Carlisle, Pa., March 11.—The anniversary exercises of the Indian school here this town were attended by the largest number of people that have come here since the school was instituted. The principal interest in the exercises was the address by the late ex-governor of Pennsylvania, who was here to see the school. The exercises were held in the school building, and were attended by a large number of the students and their families. The exercises were held in the school building, and were attended by a large number of the students and their families.

"7" nips a COD in the bud.

SENATE FILIBUSTERING.

Some Delay in Organizing the Senate Committees.

Washington, March 11.—The caucus committee of the senate was in session again today. The committee is as yet quite a distance from an agreement, and it may be decided to make no attempt to organize the committees for the present. The tariff situation is giving the Republicans some concern. They feel sure that their bill can pass, but it is now believed that the debate is going to be extended in the senate. It is known that the committee on Finance is to talk on an active subject in the bill. The debate is regarded by some Democrats as a victory.

After the schedules of bill become known, it is believed there will be a take advantage of duties under the lower rates. After the new bill goes into effect there will be a suspension of imports for several months, and a consequent falling off in receipts, and the revenue, they say, as a matter of fact, will show a decrease. This view is taken by quite a number of Democrats, who say that it is their policy to have the bill passed but not until after the revenue has been thoroughly discussed. Without an active subject in the bill, the Republicans will not be able to hurry the measure along. The silver Republicans have indicated that they will not prevent a tariff bill from passing, but are not opposed to the policy.

Republican senators now believe that the bill will have to be amended materially by the committee on Finance, and the senate. It is known that two schedules have been submitted to the committee, and that the committee is being the chemical schedule. Without making a close examination it is understood that senators think the rates are in some cases higher than the rate of 1890. As soon as the new bill is introduced the Finance committee will begin consideration of it, and before the senate can act on it.

There was some talk at one time that the Republican members of the Finance committee would be consulted by the ways and means committee while the latter was at work on the tariff, but that measure might be framed which would require as little amendment by the senate as possible. The Finance committee is now working on the bill, and it is expected that the Finance committee will be able to bring the bill before the senate as soon as possible and present it.

STILL A MYSTERY.

The Shooting of Mrs. Bragg While Asleep.

Chicago, March 11.—The police are still completely at sea over the case of Mrs. Caroline E. Bragg, who was shot while asleep last night. Her adopted son, Josephine, is under arrest on suspicion of having fired the shot, but no evidence has been obtained to prove that he committed the crime. She has been closely guarded since the shooting, and it is believed that both eyes were destroyed by the bullet.

CABLE TARIFFS.

Places Where Long Dispatches Cost Heavily.

Few persons who have not experienced with telegraphic cable appreciate the expense of cable communication, says the Chicago Times-Herald. Cable rates are so much per word, instead of per message, as in the case of the Western Union. In the West Indies outside of Cuba can be sent for less than 10 cents per word. Messages to Porto Rico cost 10 cents per word. American rates range from 50 cents (Guatemala) to 75 cents (Costa Rica) and 80 cents (Honduras). The rates for the same messages apply to Cuba, and take a big jump upward. Brazilian rates are 10 cents per word, and the rates for the same messages apply to Cuba, and take a big jump upward. British Guiana points cost 10 cents per word, and the rates for the same messages apply to Cuba, and take a big jump upward.

The recent death of Sear-Faced Charley (Ming-ko-dum), who was one of the sub-chiefs in the Modoc tribe in Northern California during the Indian warfare against the troops under the lead of Gen.

for the efforts of the brave squaw-
-ma, war would have broken out
before. Many times she took the
ons from the hands of the warriors
on the destruction of settlers in the
and was the cause of the deaths
s of the army of the trouble brew-
Her influence with her people began
as their rage against the whites
ed. Then, too, the warriors began
against the whites for the destruc-
ned by the Modocs, and she was
elled to sleep in secret places for
of death from her own brothers and

WELL-PAID CLERGY. In England many established churches have well-paid pastors and teachers well. The salary of the archbishop of Canterbury is \$15,000 per annum. The archbishop of York has \$30,000; the bishop of London, \$30,000; the bishop of Exeter, \$35,000; the bishop of Winchester, \$35,000; the bishop of Bangor, \$21,000; the bishop of Bath and Wells, \$21,000; the bishop of Ely, \$27,500; of Gloucester, \$21,000; of Chester, \$21,000; of Exeter, \$21,000; of Manchester, \$21,000; of Liverpool, \$21,000; of Litchfield, \$21,000; of London, \$21,000; of Carlisle, Lincoln, Norwich, \$21,000; of St. David's, \$22,500 each; of Salisbury, \$22,500; of Worcester, \$22,500; of Hereford, \$16,000; of Sodor and Man, \$16,000; of Truro, \$15,000; of Wakefield, \$15,000; and then besides there is an archbishop, bishops, suffragan bishops, and deans.

MISSING

Staples' Fourth Hospital Bill
Stolen From Senator
Wyman's Desk.

Was Returned By Commit-
tee's Clerk--Douglas Bill
Postponed.

A Lively Day in the State
Legislature--Several Com-
mittee Reports.

St. Paul, March 12.—(Special to The Herald.)—The house began with something of a sensation this morning when Senator Wyman, chairman of the senate finance committee, to which the Hastings bill had been referred, obtained the privilege of the floor and stated that at some time during the recess of the senate some unknown person had broken into his desk and made off with the Staples bill locating the fourth insane hospital at Hastings. The speaker called attention to the law, and it was at first directed that the original copy of the bill be substituted for the engrossed copy which had been stolen, as provided by law, but later Mr. Staples, the author of the bill, reported that the person who stole the bill had not made himself known, but that he had returned the bill, and the matter was dropped. Still later in the day Mr. Wyman again reported that the clerk of his committee had the bill all the time.

The speaker announced the special joint tax committee as follows: Messrs. Dunn, Smith, Kelley, Hartshorn, Laing, Scribner, Stone, Laybourn, Drimmer, Kaushan, Staples, Ross, Reeves, Hill, Hicks, Johns, Mattson, Reimer and Martin. The soldiers' home committee was directed, by resolution offered by the chairman of that committee, to investigate all charges made against the management of the home. The railroad committee reported the Douglas maximum freight rate bill with an adverse report, giving their reasons for recommending the indefinite postponement of the bill. The principal reason given was that the rates in the Douglas bill were unreasonable. A minority of the committee presented a report in favor of the bill, with certain amendments proposed by Mr. Douglas, such minority report being signed by Messrs. Larson, Sampson, Wood and Blacow. Chairman Lovjoy of the railroad committee moved the adoption of the majority report, and Mr. Jacobson moved as a substitute that both reports be referred to the committee of the whole. Before a vote was taken a call of the house was ordered, 165 members being reported present. On the Jacobson substitute motion the roll was called, resulting in its adoption by a vote of 55 to 50. The motion to amend the Staples bill to take the senate traveling library bill from the table and place it on general orders was adopted. A recess was then taken till 2 o'clock.

HOLD-UP AT SWAN RIVER.

Seventy Dollars Taken From
James Klovitsky.

Grand Rapids, Minn., March 12.—(Special to The Herald.)—In a hold-up at Swan River yesterday, James Klovitsky was robbed of \$70. The officers here were called upon and arrested three men who are believed to be the guilty parties. They will have their examination today.

FISHERMEN AFLOAT.

Over 200 Men on a Drifting
Ice Floe.

Day City, Mich., March 12.—An immense ice floe, containing all the solid ice in Saginaw bay, went out this morning, carrying over 200 fishermen. The ice began to break near the shore at 10 o'clock this morning, and the floe is now eight miles out in the bay. About thirty-five fishermen from this city had been near Neagun point, and they were all carried out.

Of the 250 fishermen near Neagun point, some managed to gain the shore before the ice left, but the large majority were blown off. A strong southwest wind is blowing. Fishermen here are uneasy but do not anticipate that the men on the floe will perish. They say the ice is still too solid to break up enough to admit of passage to Lake Huron by way of the Charity islands. If the warm south wind continues for another day there will be but little chance for their rescue.

RESTS WITH THE JURY.

St. Paul, March 12.—(Special to The Herald.)—A Red Wing special to the Dispatch says: All evidence in the Johnson murder case was in last night. Attorney General Childs made the plea to the jury this morning. He spoke for nearly one hour and a half. Judge Northway for the defendant spoke eloquently for an hour. The case was given to the jury at 12 o'clock. No verdict had been returned up to 2 o'clock. The court room this morning was crowded to suffocation.

WALLING REPRISSED.

Frankfort, Ky., March 12.—It is officially announced that Governor Bradley has refused to sign the emergency act for executive clemency, and the official announcement is made that he has refused to sign the act. Some unknown date, Walling's attorney, Col. Washington, is confident now that Walling will not be executed with Jackson.

EXCLUDES THE GOLD CLAUSE.
Omaha, Neb., March 12.—A special to the Omaha Press says: The house this morning passed, without the emergency act, without the gold clause. This bill is intended to prevent the insertion of the gold clause in contracts, notes or mortgages.

IT WAS A MISTAKE.

Merriam Unlikely to Be Sent
to Germany.

Washington, March 12.—(Special to The Herald.)—All the big newspapers in the East, as well as the Associated Press, announced this morning that ex-Governor Merriam of Minnesota had been decided upon for ambassador to Germany. Investigation by The Herald correspondent this afternoon indicates that the announcement was premature. If not a mistake, Merriam left for St. Paul last night, so nothing could be learned from him. There is still a fight against, and his chances for appointment are not of the best.

Ex-Governor Hubbard will also probably be beaten for a foreign mission, and those on the inside now think that Stanford Newell, of St. Paul, will be the first Minnesota to capture a big office of this kind.

CAUCUS ON OFFICES.

Division of the Spoils Agitating
Some People.

Washington, March 12.—(Special to The Herald.)—It is thought by some Minnesota officeholders in Washington today that, unless the North Star state delegation soon holds a caucus to select men to recommend for office to President McKinley, the Minnesota candidates will greatly suffer. Some of the members of the delegation are anxious for the delegation to take such action, while others do not appear to favor the plan.

Representative Heatwole today declined to endorse two applicants for office until the caucus had been attempted to try to reach some agreement on the patronage. The delegation will meet on the 14th, and may lose a good many good offices.

MORRIS AND NELSON.

They Called at the White
House Today.

Washington, March 12.—(Special to The Herald.)—Congressman Morris was an early caller at the White House today. He was accompanied by Senator Nelson. They were not able to see the president, but they called on the regular reading day for cabinet. It is thought they called on appointment matters, but neither would discuss the reason for their visit.

AFTER BOWLER'S PLACE.

A. L. Ordean Would Be Com-
ptroller of the Treasury.

Washington, March 12.—(Special to The Herald.)—A. L. Ordean, of Duluth, has filed an application with the treasury department for appointment as comptroller of the treasury, to succeed Bowler. Mr. Meeker, of Farmington, has applied for the position of collector of customs at St. Paul.

TOWNE IN NEW YORK.

Delivered an Address on the
Currency Question.

Washington, March 12.—(Special to The Herald.)—Ex-Representative Towne returned from New York this morning. The New York Journal today says of his speech in New York last night:

"Mr. Towne delivered at Carnegie hall last night, the fourth of a series of five addresses on the subject of the currency arranged under the auspices of the New York Bimetallist association. His subject was 'The Theory and Practice of Bimetallism.' The address was filled from beginning to end with tersely put and well-rounded epigrams, that invested the subject with more than passing interest. Mr. Towne is an engaging and convincing speaker, and his sentences awakened a great deal of enthusiasm last night."

Mr. Towne will leave Washington for Duluth on Monday.

MRS. RUIZ'S CALL.

She Pays a Visit to Secretary
Sherman.

Washington, March 12.—Mrs. Ruiz, wife of the dentist who was found dead in his cell in Chinatown, called at the state department today and met Secretary Sherman. The meeting had been previously arranged by a female friend of the widow. Mrs. Ruiz was accompanied by her friend, who acted as interpreter and by her five children, all dressed in the deepest mourning. Secretary Sherman received the party in his private office and listened with sympathetic interest to Mrs. Ruiz's representations.

She did not go into the details of her husband's death, indeed, she was unable to do so for want of more than hearsay evidence herself as to the main points. It was, however, her purpose to have all of the facts officially disclosed and in this she sought the good offices of the state department. She also expressed her intention of preferring a claim upon the Spanish government for indemnity for the killing of her husband.

Secretary Sherman listened for ten or fifteen minutes to the statements of Mrs. Ruiz, and then without committing himself, suggested that she reduce her statement to writing and submit it to the department which might thus use it as a basis for investigation.

A LITTLE FALLS FIRE.
St. Paul, March 12.—(Special to The Herald.)—Little Falls, Minn., special to the Dispatch says: Fire last night destroyed the fine saloon of R. Mariott and clear factory of Southard Brothers. The fire caught in the clear factory, but the cause is not known. A heavy blizzard was raging and it was almost impossible for the fire company to reach the place. Mariott's loss is about \$25,000, fully insured. Southard's loss is about \$700, partly insured.

THE TREASURY CONDITION.
Washington, March 12.—Today's statement of the condition of the treasury shows: Available cash balance, \$210,769,533; gold reserve, \$151,046,701.

FLOODS

Mississippi River Over Fifty
Miles Wide--Some Queer
Memphis Excursions.

Fifty Miles Overland in Big
River Steamers--Flooded
Coal Mines.

Missouri and Platte Rivers
Still Ice Bound--Floods
Elsewhere.

Memphis, Tenn., March 12.—The "Father of Waters" continues at this point in its booming career, surprising planters, citizens, and the older inhabitants alike. In the past twelve hours a rise of seven inches is noticed with the prospects of a cessation. A private levee at the Neely cotton plantation ten miles above here, has failed to resist the powerful current. All the live stock in that section has been removed to the hills.

At Memphis proper, the big 1000 acre canal bar is completely under water, forcing out a hundred or more thugs and thieves who made the willows of the bar a night hiding place. Wolf river, just north of this city is overflowing its banks doing considerable damage to fences and settlers cabins.

Two great side-wheel steamers capable of carrying 1000 passengers each, issued notice of excursions into eastern Arkansas, giving a view of the overflowed country and submerged plantations. This means a trip of fifty miles due west from Memphis, through the tree tops and over cabins, farms and small villages. Past high water offered no such opportunity.

WABASH SEVEN MILES WIDE.
Mount Carmel, Ill., March 12.—Last Thursday night this section was visited by a heavy rainfall which caused a great overflow of the highest point ever reached. The river at this point is not less than seven miles wide. A great mass of ice, piled up in the bottoms will be lost. The depot at East Mount Carmel is full of men, women and children, driven from their homes by the water. Many are without food or proper clothing.

SOME QUEER BOAT RIDES.
Vincennes, Ind., March 12.—White river, the river duchess, has been harassing are flooding the country. Men row from Vincennes to Lawrenceville in boats. Water stands three feet deep in the new St. Thomas Catholic church.

SITUATION AT SIOUX CITY.
Sioux City, Ia., March 12.—The recent heavy rains in this locality have greatly swollen the smaller streams, and much minor damage is reported throughout the river valley. The ice in the Missouri still holds fast at this point, but it is reported to be breaking up faster up. If this continues, disastrous floods are almost certain.

FILLED THE COAL MINES.
Terre Haute, Ind., March 12.—There is a break in the dyke on the Wabash river in Sullivan county, and ten thousand acres of farming lands will be flooded. The Jackson hill and Alum Cave coal mines in Sullivan county are both flooded.

FAIRMEN LEAVING HOMES.
Burlington, Ia., March 12.—The river is rising rapidly. Fairmen on the lands north of Burlington are preparing to move before the flood reaches them.

PLATTE RIVER BOOMING.
North Bend, Neb., March 12.—Ice in the Platte river has broken up here, causing the river to rise nearly three feet. It is feared that the bridge will go. The mercury has fallen twenty-five degrees.

OHIO IS RECEDED.
Cincinnati, March 12.—There is general relief here today because the Ohio river which had reached a stage of over fifty feet, began falling at noon. With clear weather prevailing in Ohio valley no further apprehensions of flood are now felt.

FIGHTING FOR LIFE.
But Little Hope For Pearl
Bryan's Murderers.

Frankfort, Ky., March 12.—It was expected that Governor Bradley would today announce his decision on the appeal of Scott Jackson for executive clemency. Jackson is sentenced to hang March 29 for murdering Pearl Bryan. The governor began consideration of the appeal of Alonzo Walling today, before announcing his decision in Jackson's case. It is believed that Jackson's appeal has been denied.

Walling's friends had hoped for commutation of his sentence to life imprisonment. They are now seeking a respite for one day only; if it is not possible to get a longer respite. They believe if Jackson is hung first that he will confess, so as to help Walling out. There is a report that the two men will be hung on the same day, but nothing official is announced or known.

EVA BOOTH BETTER.
Toronto, Ont., March 11.—Commissioner Eva Booth, of the Salvation Army, who has been seriously ill in this city, is today pronounced to be out of danger.

OCRAAN STEAMSHIPS.
New York-Arrived: Massachusetts, London; Havel, Bremen.
Liverpool-Arrived: Britannic, New York; Turic, New York.

Unlucky Pugilist---Car-
son Gossip.**

CAN RIDE IN A PULLMAN.
Galveston, Tex., March 12.—The court of civil appeals has affirmed the decisions of the lower court in the case of the Pullman Palace Car company cases. A negro minister who purchased a first-class ticket from St. Louis to Galveston was compelled to ride in a "negro" car. The appellate court held that where a ticket was sold for a separate coach like Pullman car the negro is entitled to passage in that kind of a car, or the company is liable for damages.

best physicians
in New York treated her, and finally
declared her case hopeless. As a last
resort, S. S. S. was given, and an
immediate improvement resulted; a
few bottles cured her completely,
and no sign of the disease has
returned for ten years.

Cycle Club Dance.

The Duluth Cycle club gave a dance last evening in the Kalamazoo block. The affair was informal, and possibly all the more delightful for that reason. About 100 people were present, and sixteen couples were danced, the Italian orchestra playing. The guests were regaled by C. C. Evans and S. M. Lindstrom, and the floor was in charge of E. J. ...

thing might have been said with reference to it, but I never intimated in any way that the stock was not absolutely ours.

Col. Harris denies some important statements made in an affidavit of A. R. Merritt. He claims that the loan of fifty shares of the stock made to J. L. Washburn was done at the request of Alfred Merritt through Mr. Clark, and that A. R. Merritt was not present as he asserted. Mr. Washburn gave a receipt for the stock, which was a promise to return it on demand, which receipt Mr. Harris quotes, and claims he still has in his possession.

As to the assertion made in the joint affidavit of A. R. Merritt, John E. Merritt and M. Clark he swears that he never had a conversation with these persons, in which he agreed that Clark Merritt family in connection with the Oliver Mining company case, or that he was in that case. He swears that Alfred and Leonard Merritt often told him that they were not personally interested in the result of that litigation.

DR. ROUTH'S OPINION.

Does Not Like St. Paul's School Government.

Health Officer Routh returned yesterday from St. Paul, where he has been for several days.

He says that the observations of the workings of the St. Paul school system lead him to conclude that Duluth had better retain her independent school district. A cut in the number of teachers has been made and there is a great deal of feeling over it. One of the teachers have stated that margin of but \$25.00 per month for salaries and incidentals over and above their actual living expenses. The reduction will result, the doctor says, in the loss of the most of the present corps of teachers and the substitution of cheaper ones in their stead. The council down there is also discussing the scheme of charging tuition in the High school in order to help out on expenses.

So far as he could learn, the doctor said he was led to believe that the St. Paul people are discouraged, over the city's financial condition.

SCANDAL

Secretary Bliss Causes a Big

Sensation in the Interior

Department.

Washington, March 12.—A sensational

order repudiating acts of the general

land office in the Chicago lake front

cases, and which probably will be

followed immediately by the pre-

emptory dismissal of Silas W. Lamoreux,

Wisconsin, commissioner of the general

land office, was signed by Secretary

of the Interior Bliss today. The order

directs that all proceedings in the case,

subsequent to the filing of the applica-

tion to locate McKee scrip on the lake

front, be rescinded and annulled, and

orders a new trial before the new com-

missioner, not yet appointed, within

thirty days after notice to all parties.

The action in the case was taken on

the basis of the report of the commis-

sioner of the general land office, which

was that the McKee scrip was located

on the lake front, and that the McKee

scrip was located on the lake front,

and that the McKee scrip was located

on the lake front, and that the McKee

scrip was located on the lake front,

and that the McKee scrip was located

on the lake front, and that the McKee

scrip was located on the lake front,

and that the McKee scrip was located

on the lake front, and that the McKee

scrip was located on the lake front,

and that the McKee scrip was located

on the lake front, and that the McKee

scrip was located on the lake front,

and that

Duluth society is evidently observing Lent with great earnestness, for there is little or nothing going on, at least in the way of conspicuous affairs. Snow shoeing and ski running have been favorite amusements among a good many of late. Early in the week snow shoeing was delightful, and a number of parties went out. The soft weather and snow made them very enjoyable. The tendency toward outdoor sports has been stronger than ever in Duluth society of late, and there is a corresponding decrease in the popularity of the rigor of the winter. Literary and athletic clubs are occupying considerable attention for a period of study.

Nagert, R. H. Cox, Norton Matten, Robert Johnson, and the Rev. Mr. Lynn, Vincent Grady, Frank D. and others.

The entertainment will come with an oration by Bishop McGowan at 8:35 sharp, after which the play will be given.

There will be quite a number of parties. It has been some time as a play has been given in Duluth and the people are anxious to see one played on quite a pretentious scale has aroused great interest.

A number of pretty songs, choruses and musical numbers of a nature to give pleasure and to add to the performance and taking it all in there is every reason to expect a time

There will be a meeting of the of the city of Duluth, at the parlor

Yesterday is the first day Johnson will be in the city. He intends returning in Toronto until next Friday when he will start for his home in Minneapolis. After a short visit at home he will return to Hot Springs for a while to build himself up. Johnson will make the racing circuit for a leading Chicago cycling firm, though virtually he will not race. He will be loved yet, but he will not really be the gentleman he is able to train, and when he will essay but light work.

SCHILLER CIGAR COMPANY,

Manufacturers, Importers, Wholesalers and Retailers of

IMPORTED AND DOMESTIC

Francis CIGARS AND Tobacco

Wholesaling.

We are extensive jobbers in Cigars and Tobaccos and Smokers' Sundries, and invite retailers in the trade to give us a call or write for anything they want and we will endeavor to fill the order to their complete satisfaction.

Manufacturing.

We are manufacturing a line of the most popular Cigars now being sold.

The Schiller Cigar Co.,

Headquarters for Chewing and Smoking Tobaccos. We carry a most complete line of pipes and smokers' Sundries.

312 West Superior St.

OUR STANDARD POPULAR FAVORITES.

THE SCHILLER.
This is strictly a high grade cigar and has a great hold on popular favor. This it has gained because it is a good cigar.

THE HOME TRADE.
This is a prime favorite. This cigar has stood the test of time and still ranks among the best.

TOM MOORE.
Everybody likes the Tom Moore. It is widely known and universally popular.

LA SINGERIDAD.
A Key West Cigar of the highest excellence, and one that gives the greatest satisfaction.

Retailing.

We give careful attention to the retail department, keeping in stock at all times a large and complete line of the very best imported Foreign and Domestic Cigars, both of our own manufacture and those for which we have the distributing agency.

Importing.

We import the very choicest Havana Cigars and the highest grades of Tobaccos.

The Schiller Cigar Co.,

Across the Tea Table.

These are days for your tea table, my dear Modern Woman, days when you can bring yourself into accord with the brotherhood and sisterhood of tea-lovers, whose names have acquired a literary fame. With dear, gentle Elia and Cousin Bridget, who drank tea on afternoons long, long ago from those quaint old blue and white cups, the like of which moved blood to write one of his most charming essays, his "Pamela on Tea Cup," which is as whimsically delightful as one of those old-fashioned, grotesquely old cups which gave him his theme. Dr. Johnson, sitting in the armchair of his eighteenth century admirers, and drinking his "dishes" of tea, has been the shining example of tea-lovers of the cheerful cup. Thackeray and Dickens make universal use of the delights of "teacup time," and though Salady Camp and Patsy, "from the groves of delicacy," called their brew "tea," yet whatever the contents of the Salady's cupboard in the wall there is a suggestion of good humored and delightful intercourse in its depths. Tea in these days is not tea pure and simple. We put a lemon in it, a dash of orange flower water, a suggestion of the spirit of the age, a dash of lemon, its delicate floating slices of lemon, its all gleaming fragrant cup, never offend the tastes of a guest if you place this before her. Your tea must be fresh, hot and strong; your teacups clean and good to look at, your conversation suggestive of hospitality and good humor, and the Lenten days, friends many times of sweet communion and mentally helpful thought. These are just the pleasantest days for two or three to gather around a tea table and while one reads aloud some words which are whirling through the air of current thought, from other minds which will broaden and develop. There is so much to know, so much to think of in these busy days of modern universal education, so much to elevate and ennoble that so-called gossip seems like a tedious stirring life and problem of the age which though we may not be able to solve yet come to us in interesting and suggestive power. A study of current events does not seem small in its suggestiveness for it brings us into touch with the great questions of humanity, national or individual which shape the destiny of man and teaches us to add our little individual rags to the great process of civilization. Teachers

us to use our power to the very best and highest and to be helpful instead of harmful; to add to knowledge and to get in touch with the great world of thought of mental and spiritual development which after all, is the chief and greatest object which all of us should strive to attain.

Duluth is peculiarly favored intellectually. There is something in the atmosphere of the city which stimulates the mind. One finds here minds which bear the deep stamp of the cultivation; men and women alive to the questions of the day, up in all the modern developments; the number of clubs and caisses for study and discussion will certainly attest this modern development, even among the very wealthy, those whose lives are devoted to pleasure, or supposed to be, is not considered good form to be ignorant or careless, or neglectful of the advantages of any of the great educational influences and whereas in Duluth we have no wealthy leisure class, nor are we a great or large city split up into social factions and parties, but a small growing city, where each one touches elbows with his neighbor, where the long winter season and the cold brings desire for quiet and pleasures of the home and the cultivation of the mind. We will find in after years that these influences are formative, that our city will bear upon it the stamp of intellect, that in the years to come if she reaches the destiny which has been prophesied of her, in a material sense, she will feel upon her the influence of the clubs and classes which are now so numerous in our midst. We have the card clubs, you say, my dear sister, where is the cultivating power there? Ah, my dear modern woman, there is no more educating force that a game of whist. An intellectual stimulation, a teacher of logic, a force to give self control and the dignity which makes a strong personality even at the card table. A game of whist is an epitome of the same of life. One can show the fine or coarse character at the card table more clearly than anywhere, and I defy anyone to hide the mean or small traits or personal characteristics there. Furthermore, one must have recreation, and the lighter games of cards give that. All work and no play—you know the old proverb. And Jack must have a change of pleasure to make that spice to life which gives it a zest.

There is a distinct note of pleasure in the suggestion of bringing Mr. Flax to lecture to us in Duluth. No man stands higher than Mr. Flax in the world of thought. He is extremely versatile and adds to his power of research a gift of literary style and diction which gives one more claim to our people, are reproached that we have no distinctive or national music or art, or novels, but we have an American

school of history which is second to none, and which seems a field in which our writers excel. And Mr. Flax has done more than any man to place our history as a nation in its proper perspective. It is almost the gift of the romancer that poets out of us from his pages. Dry facts become in his charming placing of the sentence or event, alive and vital, and so clear that the impression of the small in themselves are made to him to play their part in the great formative influences. We were for so long occupied in material question and long stirred up by civil war, so long adjusting ourselves after it was over, that we had lost the sense of the opening up and development of our great country that the yesterday of our nation was a closed book to us. But American historians have revealed it with all the charm of writing and literary worth which has made them a pride and glory to all of us. As a philosopher Mr. Flax has followed out more generally life than any other writers, but here also he stands in the front rank and has done more of his charming personal qualities, and his writings are so clear and wise that his books are interwoven with one another in a lastingly disagreeable and cry shame to our little city which bears the stamp of intellectual research upon it, to allow an opportunity to hear such a man pass us by. Those who have met Mr. Flax speak of his charming personal qualities, and we are always more or less impressed with gifts of tact and those traits which make intercourse delightful with one who has achieved the right to be called great. There is a bit of a story to his life. He was born in 1832 in Hartford, Connecticut, and was an only child, his name Edmund Flax Green in infancy. When he was 12 years old he took the name of his maternal grandfather, and John Flax, simple and strong the name stuck. Every American in that sense that one statesman voiced his dislike to the name started in the middle. He was said to have been very precocious, studying Latin at 6, and Greek at 9 years of age. He began his literary career in '52 with an article called "Mr. Buckles' Fallacies." His first book of any importance was "Myths and Myth-Makers," a philosophical, historical, scientific and political work have followed in quick succession. He touches on all subjects with the hand of a master, and music and art are not out of the province of this versatile mind. One of his great charms, a thing that must strike every one who reads his books, is his generous acknowledgment of help or suggestion from other minds, and the works of other authors.

Every one and a while we hear of some act which shines as "a good deed in a naughty world." Women or men whose influence has been thrown toward helping or uplifting others; and the more one thinks about those things, the stronger becomes the impression that influence and example are the only forces which will prove good or lasting. Such is the spirit of the college settlements among the poor, and the spirit of modern humanitarianism. This educational influence upon the poor, degraded classes is no longer a rest for restless butterflies of fashion to patronize with their brief and dramatic presence as workers, but a systematized labor and worked out plan of reaching people with whom contact was formerly impossible to come in. It was a pretty incident of this is exemplified in the work of Margaret De- known her, felt the charm of her stories, believed she was a true woman

who felt the great problems of life stirring her heart to endeavor and she has by example to poor people lately done something which would cause her shrink from praise, but which is the clear shining of her rush light of a good deed. She has just had a letter from a Boston of daffodils raised in an attic window. And she has made a round sum for her pet charity. This was not advertised as Margaret De- land's work, to carry with it in the sale her name as a power. But it was done as quietly and unobtrusively as any woman's work done by an unknown woman. She wanted to do a deed that money could be made by the poor in raising simple flowers, and carrying with the effort a reflex educational influence of the stimulus it was to the divine principle which lies in every heart. A single attic window where the sun only came a short while, a few pots of daffodils, the sweetest flowers of spring carrying in their very purity and fragrance a power for moral uplifting. Nothing appears more one in the spring time than such a flower, there is a suggestion of old age, and wide laws, and green grass just awake with the April sun, or a bouquet of snowdrops, and a few crocuses, through which the cool, fresh, wan wind of spring blows carrying a message of hope and cheer to the hearts of the blessed country; where April's winds are laden with seed and life, he was born in the west, where fruit trees never come might well buy a pot of daffodils for a few pennies and dream of the pathetic longing of a sweeter, purer life.

For the last two or three years the larger women's clubs have been separated into departments for work and study under different heads. One of these is called the "Department of Household Economics." This is a high-sounding title and has provoked many a smile in those whose sense of humor is active. Great quantities of paper have been wasted in the writing of essays and theories tending toward discussion. This has probably been a waste of time, yet, although provocative of laughter and jest, for in the stirring of a subject one realizes that there must be something wrong to bring about such an agitation; some want supplied. It has probably aroused a true spirit of inquiry, and as that is the work for good, New York has established her "National Household Economics Association," and the president of this society says in her address, that the object of the society is to teach the science of home-making. The women who have always known and made for herself a happy home allows, an amused smile to play about her mouth at the pretentious and high sounding title. The science of home-making. "Shades of our Great-grandmothers!" But when one takes into consideration the elements of the modern home, it seems as if this tended to the solving in degrees of what has become a serious problem in the proper fashion for the elements of the home, the idea is to establish in the minds of women, the desire for the trained servant, and to employ no others. Mrs. Shaller asserts that the trained servant is just as much a necessity and a necessity as the trained nurse, and that we will come to recognize it in a few years. She says, "the ordinary woman does not realize that housekeeping is a science whose ramifications touch the moral and spiritual no less than the physical

organism. And she purposes to have branches of the National Association established in every city, town and village. It would be a pleasing task to teach some women how to make a home.

It is the custom among the loyal Americans to take pride in the first lady of the land. Perhaps it is a remnant of the days when our ancestors felt patriotic pride in a queen, or it may be the unconscious tribute of manhood to womanhood and its influences. However, the passing of Mrs. Cleveland from public life to private life brings to us a realization of the dignity with which she bore her position. Fulsome praise of an individual, especially one in a high position, is always out of place, but those of us who have felt Mrs. Cleveland's charm of beauty and manner can never forget it. She is one woman who has proved that American womanhood is the result of our national institutions to a place in the world with older civilizations, and there are many who claim that the place by right is first. The greatest charm about Mrs. Cleveland is her simplicity and want of affectation, she shows the typical for that, if nothing else. In these days, when money is power, when women with no claims to social distinction use money as a lever, when self-assertiveness, selfishness, mothers, selfish aims rule, more or less, it is a delight to think that there are women of power in the world who use the "Golden rule" for the conduct of life. The well known woman, whose comment is instructive is frequently obliged to use weapons in society from which her very soul revolts, obliged to meet rudeness with the aggressiveness which is the only thing appreciated or understood. But dignified refusal to again place oneself in circumstances where this is necessitated is always wise and teaches its own lesson. And it is easy to find congenial spirits anywhere, especially if that tact adaptability, simplicity and good feeling are cultivated which have made Mrs. Cleveland famous in her own time. It is not her "manners" but the inner spirit which makes the woman charming, for manners are not idle, but the fruit of noble nature and of loyal mind."—AGATE.

HELD FOR TRIAL.
Grand Jurors, Minn., March 13.—(Special to The Herald.)—The men arrested Thursday at Swan River charged with robbery were brought into court here yesterday. The name of the complaining witness proved to be Zeb Forsyth. He testified that three men met him on the railroad track, threw him down and took about \$50 from him. The defendants set up a general denial and claimed that Forsyth had been on a spree. Judge Stilson held James Keenan and William Vandyke to the grand jury in \$500 bonds each. The examination of James Albion, a third member of the gang was adjourned until today. He is the one that was sloping away down the railroad track when Deputy Sheriff Johnson got him.

There is nothing superior to Salvation Oil for the relief and cure of wounds of all kinds. Its effect is marvelous. 25 cents.

CARD OF THANKS.
Duluth Camp 2341, M. W. A., desires to thank the Normanna choir and others who so kindly assisted in making their entertainment a success; also to the Duluth Music company for kind furnishing the piano.

A Gentleman's Hat— The Gordon

HIS IDEAS

Commissioner Dinham Finds Some Things at Fault in the County.

Costs Ramsey Less For Its Poor Than St. Louis County.

Finds a Better System at St. Paul Than Exists Here.

County Commissioner Dinham returned yesterday from a trip to Milwaukee and St. Paul for the purchase of relief tobacco. While away he took occasion to look over the eleemosynary institutions of Ramsey and Milwaukee counties, and he returns full of ideas on the subject which he would like to have applied to this county, and which he believes would result in the same saving here that they have elsewhere.

"In Ramsey county," he said, "which has a population of 150,000, the entire estimate for poor and hospital purposes, including all outdoor relief, was \$65,000 last year. The amount in St. Louis county last year will be found to exceed that. If all the items in the late financial statement are figured up, The Ramsey county poor house has an average population of 10, while St. Louis county will not average over fifty. The City and county hospitals will average 175 patients, while St. Louis county will not come anywhere near that. Yet they expended less than this county did for the care of their poor.

"One reason for this is the fact that their outdoor relief is limited. They will not give one person more than \$20 a year. When that limit has been reached the applicant for aid is made permanent charge and must go to the poor farm. This cuts off many unworthy applicants who prefer to work than go to the poor house, though they do not scruple to take all the outdoor relief they can get. We cannot do that here because there is no room for them in the poor house, consequently our outdoor relief figures up to extravagant sums. A pauper may be maintained in the poor house a great deal cheaper than through outdoor relief, hence the saving.

The building of a wing to the poor farm for a hospital will also bring the expenses down. The Ramsey county hospital runs a training school for nurses, which is maintained out of that \$65,000, and the cadets are paid \$7 per week. There is a great saving in a certificate from the county hospital than any other. It costs us an average of \$100 a year to support a pauper, while it costs but a small fraction of that to support a pauper in a poor house.

One of the principal features of the

Ramsey county poor system is its absolute divorce from politics, and this feature should be introduced here at least. The county commissioners have nothing whatever to do with the poor business. They have little more influence than any reputable citizen. The government of the poor business is vested in a board of control composed of three retired business men and taxpayers for the honor of it than for the stipend. They allow the bills practically, as they recommend them to the board of county commissioners, which has little option but to pass them. The commissioners can give no county relief and can run no bills. If St. Louis county keeps on the way she is going it will take all our taxes to care for the poor.

"That is one reason why I am in favor of building a poor house with a hospital attachment. I believe it will save the county \$20,000 a year. I also believe that the board should send a delegation to look at a few poor houses for the purpose of getting ideas. This trip the brief time I was able to put in that way I obtained ideas and knowledge of the business which I would not part with in view of the responsibilities that are to fall on the board in connection with the erection of a poor house.

"Milwaukee county has much the system as Ramsey," I did not learn what it costs them, but the 30,000 population they have 600 inmates in their poor house. Everything is systematized and the ruling passion of economy, they even sell empty sacks, and they keep cows, the milk from which not only supplies the poor hospital, but they sell the milk to the insane asylum at Milwaukee."

Would Interest Duluth.

Louis Nash, of St. Paul, representing the retail merchants of that city and Minneapolis, is in town, his mission being to get expressions of sentiment in favor of the bill taxing department stores, which is now pending in the legislature. He was introduced to Mayor Truelsen by Mr. Silverstein and the mayor suggested that he appear before the common council on Monday, which he will do. He will also appear before the commercial bodies during his stay here.

Funeral of Officer McManus.

The remains of Officer Patrick McManus, who died of pneumonia Thursday, were conveyed to their last resting place today. The body was escorted by detachments of police and firemen in uniform, each twenty-five strong, from the house to the cathedral, where the impressive funeral service of the Catholic church was held in the presence of a large assemblage of the friends of the deceased. The funeral sermon was preached by Rev. Father Corbett. The escort of police and firemen accompanied the cortege as far as Seventh avenue east, on route to the cemetery. The casket was buried in a profusion of cut flowers and on it was laid a large floral star, the offering of the Police Relief association.

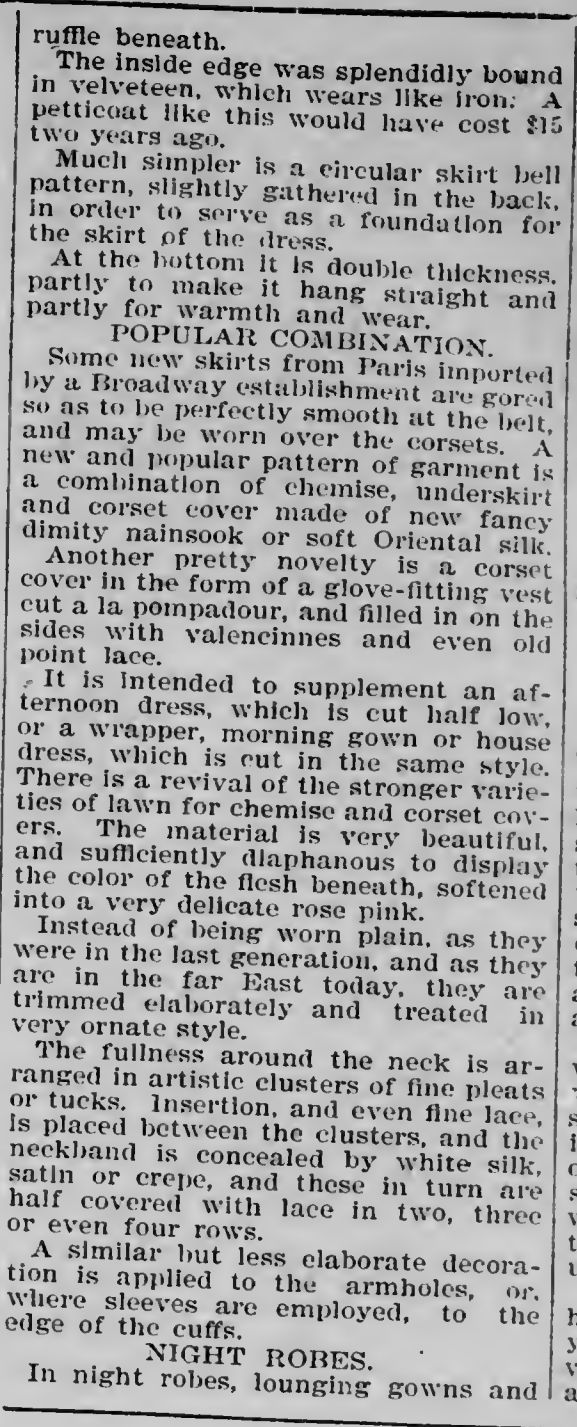

Duluth Safety Deposit Vaults.

The only protection of the kind in the city to keep your valuables safe for rent, \$5 per year and upwards; strictly fire and burglar-proof. No. 3 West Superior street.

How to Cure Yourself While Using It.

C. E. RICHARDSON,
City Clerk.

A Riotous Extravagance of Color is Foretold.

the distinguishing advantage of color is the new, esthetic importations from Paris milliners, says the New York World. Never, probably, was the dye pot in such constant and urgent demand as during the past season. The hats which are now to astonish Paris by their beauty in spring, Harmony of shades, agreement of colors, are not striving for contrasts of color, but rather for harmonies of color, and striking effects have been the aim of the milliner, and hardly been achieved.

A group of high, conical, pointed models were brought over from Paris. The last one, none of which is typical of the styles of the past, was the most noted in the 1897 styles. One of the dainties consisted of a pearly white, which would result some times in a very unusual use of rough straw, with a brim which curved over the eyes in front and turned slightly up slightly at the back.

Even more striking than this was the hat which had been imported for a long time by a New York man who is devoted to reds and pinks. It was a successful mingling of the two

lice part had a square yoke of white linen, covered with black jeweled lace, and which was a finely plaited ruffle. The sleeves were of black tulle, with small and large decorative black satin ribbon stock, with a bow at the back of the wrist. The suits of black and navy blue serge were much in evidence during Lent, as a convenient for all occasions. The regulation of the suits of serge, be the thing, and black braids were seen on many. These suits will on the jacket, and the skirt, of course, shirt waists will be worn. There are certainly the neatest of suits are in evidence, that have a lining white linen collars, the spicific and the immaculate cuffs peeping out, that, for there is nothing like it, a girl only who has a taste for the became them they would certainly to them. One young woman on north side of the city was wearing, that it lends charm to the cheeks and brightness to the blue eyes. The gray hat, with the crown turned round—college fashion—around the crown, and a white ribbon, is very fetching. Another demands all sorts and descriptions of tans and browns, and a few in winter are the softest of saffles and blue. It was sensible, as the color harmonizing with her hair, and a beautiful beauty clings to grays and blacks in them. All shades of purple and the faded blue, the different shades of blue. Short skirts (as a la Bon), with six-inch tapers and, and they are not so presume that many spring will to affect this style. Altogether, the young people cannot be found, as were the empires coats of the young people must have their sun-

Society has now buried itself, for Lent is always kept by the real society.

tees. No more bulls, receptions or any large functions. To some the outlook is dark and gloomy, and the thought of the many gayeties of the past season is the one bright spot. The gayeties are over. For such people there are still left the "at home" days, when a quiet little "chat" over a cup of tea will seem fascinating and the social life of the season will seem excitement. That's all and enviable as it may be, it is over. The season looks forward to, no more to long for, these coming forty days. The given during this time is the time to give. There is something to look forward to, but not of the kind that one ever-without-look, and the new goods to be created and the new things to be done. During the social season women will be busy with their many engagements that to them will seem to go to modistes is hard, so that forty days will be a time for those who will spend the time plan-

The Gretchen chemise is the latest
sty in this garment, and it is very
ly like the Empire in style, except

the feature, which is the short, wide sleeve, a revival of an old fashion which makes a complete and pretty bodice to wear under muslin. It is trimmed around the bottom with a laced-edged frill, six inches wide, and answers the purpose of an apron or petticoat. The neck is finished with insertion and a lace frill around or small rvers made of lace. The front and bands of cambric spread out from a point in front to a width of three or four inches at the armhole. Every pretty set of three pieces, dress, Gretchen chemise, and balcony drawers.

The fulness at the back of the
is drawn into three vandykes of
a few inches below the waist and

shaped belt is of string color and
roldry. The bodice opens in the
where it is cut out in scallops and
with a plaited frill of mauve
and a bodicy, which is sleeveless
moved on the other side. The sleeves
long enough, with a petal frill at
the elbow, fastening the shoulder.
A tailor gown for a girl of 14 has
a tiny coat trimmed with black
and a white pearl buttons, and a
coat for a child of 6 years is
of fine serge in a green shade.

n for summer wear is the foulard,
a dark ground. Such a gown is

too drowsy, and is always suited for either morning or afternoon wear. Dark and blue with a white design are cool and fresh looking on a hot day, and will be very much worn. It is always in fashion, but it has been this season in the plum and violet shades, which are new in this material, and make charming dresses with pretty accessories of lace, chiffon and ribbon. Scroll patterns in white are a very popular design on the dark grounds, but some of the new foulards have a lacework stripe, or an elaborate mere design.

fine underwear was never so beautiful, artistic and economical as it is this season. Its cheapness is due to the low cost of silver in China, where the American gold dollar now buys more than twice as much of silk thread as a decade ago, says the New York Times and Express.

The last year has increased the supply of fine silks in that great empire to such an extent that the demand for it the coarse and cheap silks is a thread and a half waste.

There is still much to be appreciated that is made of raw materials and has a high

NEW DULUTH DOINGS.

New Duluth, Minn., March 12.—(Special to The Herald.)—Mrs. G. W. Keyes left Monday morning for Lansing, Mich., to attend the funeral of her brother-in-law, James Porter. From there she will go to Olivet, Mich., to visit her son, K. D. Keyes.

Mrs. H. H. Harnum, of Harnum, will not proceed here Sunday as previously announced, but will locate here permanently after April 4.

Mrs. E. J. Harnum, who has been very ill for a number of weeks, is slightly better.

Rev. S. A. Jamison, of West Duluth, will hold services at the Presbyterian church Wednesday evening.

The marriage of Miss Lovejoy, of Thomson, to Frank McIlhenny, formerly

retary and superintendent of state missions, for the Baptist society, will be held next Sunday morning, March 21, at the Baptist hall.

The program for the Chautauqua circle Monday evening will be the lesson, "A Study in Greek Civilization," by Miss Smith, and the play, "The Sky," by Miss Cooke.

As a result of the storm of Thursday, the street was nearly impassable again Friday, and the short line trains could not run on schedule time.

The public debate was again postponed Thursday evening on account of the storm.

Mrs. John Nelson and children, of Twentieth avenue, spent Sunday with Mr. and Mrs. J. A. Nelson.

Mrs. E. A. Folkerts and little son spent Wednesday with her daughter, Mrs. Ernest H. Stevenson, of Duluth. Fred Garrett spent Tuesday in Duluth.

Mrs. Chambers, of Fond du Lac, spent Thursday in Smithville as the guest of Mrs. William H. Smith.

Mrs. E. D. Payne, of Ironton, was shopping in Duluth Wednesday.

A very enjoyable thimble bee was given Thursday afternoon by Mrs. G. Burrell to a number of her lady friends. Those present were: Mrs. A. A. Douglas, Mrs. E. D. Payne, Mrs. William H. Smith, Mrs. R. A. Folkerts, Mrs. George Edwards, Mrs. William Dunn, Mrs. Chambers, Mrs. E. J. Harnum, Mrs. Warren, of Duluth, and Misses Dush and Payne.

Mrs. A. A. Douglas and Mrs. G. W. Burrell attended a very pleasant surprise party which was tendered Mrs. Lloyd, of the West Duluth, by the members of the Garfield Circle of Duluth, Tuesday afternoon.

CANOSIA LAKE.

Canosia, Minn., March 12.—(Special to The Herald.)—The people here will have cause to remember this winter as the "winter of great snow." The ground is now covered to a depth of five feet, the first installment of which fell about Oct. 20, and much of the surprise of everybody, remained. The sleighing is the best since the lake was opened, but the beaten road, but the chances are very uncertain to the one that turns out into the deep snow.

Wolves are numerous and the deer are being slaughtered by the hundreds. Several found in the woods testify to this. The people here are hopeful of a good season at the lake the next summer and are preparing for it in the way of amusements, such as boats, bath houses, toboggan slides, etc.

Rufus Johnson is hauling lumber for a new boat house. He is contemplating the erection of a store building in which a general stock of merchandise will be kept, and he will make additions to his fleet of sail and row boats.

Frank Hayes has just completed a 10-stall carriage house on his grounds adjoining his stable.

C. E. Fenton will have several large tents with other necessary conveniences in connection located on the lake front for rent this season.

James Dingwall, of Duluth, will build a residence near the Park hotel this spring.

Among the improvements proposed this year is a boulevard suitable for a track on the beach around the east end of the lake, on a regular curve like one half of an ellipse.

The Canosia Lake Improvement association is pushing matters for the betterment of the place. A telephone line to Duluth, a stage line and daily mail being subjects of discussion. Committees to work up same have been appointed.

Petitions are being circulated to the county commissioners and common council of Duluth to change the line of the Swan Lake road to the line of the Martin and Thompson hills, one half of the proposed line being in the city and one half outside. There is no objection to this, and it should be done as it would be a large amount of money is spent in the road, of which this is an important part.

W. C. McCrimmon is serving his county at the county court house this week.

O. T. Wick, the life insurance agent, of Duluth, is visiting friends in the city.

Among other public improvements contemplated by the Canosia Lake Improvement association is the cleaning out of Pine river, the outlet to Canosia lake, so as to allow the free passage of fish to and from the St. Louis river. It is also preparing to stock the lake with black bass, salmon trout and other game fish. It has served notice that no illegal fishing will be allowed, especially in the spring. In the past large quantities of pike have been speared at the outlet during spawning time. The cooperation of State Game Warden Fullerton will be invoked, as he has promised to give the matter his attention.

The association has given its secretary, F. W. Eaton, authority to correspond with railroad companies and other land owners in regard to the sale of vacant lands, it being desirable to have the same sold to land settlers or to persons who will improve them.

The annual election of town officers took place last Tuesday and the persons elected were as follows: E. B. Engren, assessor; J. J. Brendos, town clerk; H. Holt, treasurer; and E. B. Brendos, supervisor. It was a close race between E. B. Engren, who was re-elected chairman of supervisors. The ticket of which his name was a part, received 25 and the opposition 4 votes. Owing to the new election law many of the old voters were not eligible to vote, consequently the vote was small. It is the intention of the new board to cut down expenses and to expend the revenue on necessary central improvements.

J. S. Daniels called the writer's attention to The Herald article of March 10

about the Canosia election. He says the article might be construed to place him in the light of a defeated candidate, and he and W. C. McCrimmon have been running the township affairs for many years past. He has never run for or held a township office here.

ELY EVENTS.

Ely, Minn., March 12.—(Special to The Herald.)—The walk-out at the Zenith mine was agreeably settled Sunday.

The "Big Nine" of Tower gave a very enjoyable minstrel entertainment at the Opera house Monday evening. The company is a good one and all jokes were original and well received.

The dramatic club will, on March 17, render their four-act drama, "Among the Breakers," at the Opera house. The company is composed of Ely residents and the show promises to be a good one.

Charles Dale was in the city Monday evening, in attendance of the "Big Nine" minstrels.

Jack Korb won the one-mile race at the rink Saturday evening.

Manager John Fendly and family were in Duluth over Sunday.

W. T. James left for Duluth Saturday morning.

Mrs. F. R. Vail spent Friday in Duluth.

Mr. and Mrs. E. T. Miller entertained the Literary society last Friday evening.

Peter Schaefer spent Tuesday in Duluth.

Anton Kotchevar and wife of Ely, are visiting friends in this city.

Miss Marie Morton, of Tower, was in the city Monday evening.

Mrs. E. Hocking, of Biwabik, is visiting friends in the city.

Chief of Police Garrison was laid up a few days this week with a severe cold.

G. G. G. Korb returned Saturday from Chicago.

Miss Annie Dale was in the city Monday evening from Iron.

The Chandler paid its employees yesterday.

The caucus called for last evening did not prove a success. It seems that the silver party is greatly in the minority in Ely.

Several young men who were out on a tour of mischief last Sunday evening were arrested Tuesday by an officer.

Warrants having been sworn out Tuesday.

The boys were immediately taken before Judge Cowling, and fined \$2.50 apiece. It seems that the boys had been playing checkers on the windows of a house on Harvey street, and the party immediately had the young men arrested.

Alfred Bedford, Friday evening, received an Indian game cock from a poultry farm in Northern Illinois. The bird is a beauty and cost \$1.

TOWER.

A well-attended meeting of the business men of Tower was held at the Vermilion hotel on Monday evening, says the Iron Journal, to receive reports of the question of the raising of funds for the improvement of the Crane lake portage, and to consider further plans for the developing of the Duluth and Seine river route via Tower.

A. G. King, president, and the Duluth and Range railroad representatives and the Western Union Telegraph company, the latter promising to send a man on the route with anyone whom the citizens of Tower might select, with the object of presenting a telegraphic communication between the gold fields and Duluth. The gold fields were selected by the meeting to prepare a map of the route and accompany the agent of the route and accompany the agent of the route.

The question of forming a transportation company was also considered and favorably received, and the committee was instructed to find out how much stock would be taken.

Notes: Coffman, of the Duluth and Range railroad, is up with a party surveying a location for new coal docks, which will be built in the spring.

The Tower Junction depot in order that coal and water may be taken simultaneously, thus effecting a considerable saving of time.

J. C. Foley arrived in town on Monday and was present at the business meeting at the Vermilion on that evening.

He proceeded on his way to Minneapolis on Tuesday. Mr. Foley is strongly in favor of the transportation company and is anxious to see it put into effect.

C. W. Glen, superintendent of the Little American mine, came down on Friday from Rainy Lake with a gold brick from the mine. The brick contained about \$200 worth of gold.

VIRGINIA.

Paddy McDonald, who has been lumbering for the Moon & Kerr Lumber company about four miles west of town, broke camp Monday, says the Virginian. The break was a premature one, but the same difficulty affected Mr. McDonald in his district that has affected all the lumbermen in this locality too much snow. The amount of stock, 2,500,000, while comparatively large, was not nearly as much as he expected to put in.

Working for P. McDonald came to town, only a few leaving on the noon train. On Tuesday Mr. McDonald returned those who stopped over, about twenty-five in number, right royally.

He hired Sellers' bus, attached four horses and proceeded to take in the many pleasant drives around the city. After a couple of hours of sightseeing and a few up-overs—without a serious accident—the "coach and four" drew up in front of the California restaurant where a spread fit for a king was awaiting the arrival of the jolly party.

After a delay of a month the Franklin Iron Mining company paid its employees Thursday. This is the first pay the men have had since Jan. 1. About \$900 was distributed. To say that it was received gratefully expresses it rather mildly.

On next Wednesday evening, March 17, the Library association will give an entertainment with a view to raising enough money to pay off its present indebtedness.

MESABA MATTERS.

Mesaba, Minn., March 12.—(Special to The Herald.)—C. M. Hill came up from Duluth yesterday.

Charles Simpson returned Tuesday from Biwabik.

Pete and Victor Nelson and George Farmer, of Allen Junction, walked to Mesaba Monday. After doing some trading, they walked back in the afternoon.

John Watson was quite ill this week, but has sufficiently recovered to enable him to resume his work.

The families of M. Mattson and C. Johnson have moved into the house recently vacated by C. Corpi.

On Monday the northbound freight

shades. It was toque shaped, though rather larger than the ordinary toque, and the crown was a mass of beautiful red poppies so wonderfully simulated that it made one sleepy to look at them. These were soft siltken poppies, however, which nodded gently with every breath of air and revealed such rich depths of color that it was a delight to behold them.

The brim of the hat was formed by a thick ruche of mirror ribbon which gave out delicate shades of rose, pink and poppy red in the changing lights. A very individual effect was given to the hat, by the covering of delicate pink tulle of the most diaphanous sort which was brought over the poppy crown and extended over part of the rim as well.

AN OLD FAVORITE. One of the most popular hats of this season, as of last, will be the shape represented in the center of the group. It is the well-loved sailor, a little narrower in the brim than last year and probably even more elaborately trimmed. This model was of fine yellow straw, of rather a brilliant shade, and was almost completely covered with exquisite Jacquenette roses, the contrast of color being most characteristic of the season. At one side rose loops of bright green.

A very dainty little toque, which will probably also do duty as theater bonnet, was composed entirely of ribbon. The hat represented here was made on a foundation of black, from which pointed ribbon ends projected in every possible direction. Pink, yellow and green are the prevailing colors in this particular assortment, and the ribbons were so cleverly arranged by the Parisian milliner that they resembled nothing so much as a tiny section of a gay flower bed.

The last hat in the group was designed as a special concession to American tastes and prejudices. It is a combination of red, white and blue, and it is surely a tribute to the skill of the artist who made it to say that this daring attempt has resulted happily.

The brim and crown are of white straw, the crown being covered with alternating bands of white, sapphire, blue and rose-red ribbon, and the brim being covered with a heavy fluting of mirror ribbon. The effect is most jaunty and unmistakably American.

A Dainty Model. One of the daintiest of the spin-glass models which have been made up for early spring wear is of exquisitely varying shades of green, the dices having been so arranged by the clever weaver that the hat is darkest near the crown and is lighter in shade at the top and rim, thus prettily simulating the distribution of color in the delicate leaves and grasses of early April.

About the bottom of the high crown is a plaited band of darker green, while at one side there is a group of bluish-lavender thistles with leaves of grass. There is hardly a knickerbocker or fabric which the grass-weaver cannot reproduce in his favorite material, and the possibilities in the way of dress hats have as yet but begun to be exploited. Seventy-five colors was the record price demanded for the hat pictured here.

Last season, in addition to her derby and her stiff sailor, the masculine girl appeared in a stiff hat of black silk. This was the exact counterpart of the silk hat worn by her brother, but she was a great deal fonder of it than her relatives had ever been and wore it at

all times and on all occasions. This spring the masculine maiden has betthought herself of an addition to this stiff and severe cheapness. Why should she limit herself to her argument, to a plain crown and straight when other women are reveling in all the flowers and feathers that their purses will buy? Therefore, she has decided to adorn her 1929 spring hat with a big waving ostrich plume.

A NEW COMPIRE. The Duchesse d'Angoulême costume which attained so tremendous a vogue in the early part of the century, when the lovely Duchesse was exiled to England, is undergoing a revival, and a seldom have end-of-the-century women encountered a fashion that was more difficult to revive. It is probably the most complicated method of hairdressing that prevails today, but perhaps for that reason it is likely to be the most popular.

To accomplish it bunch the hair up straight from the base of the neck, from the top of the head and from the temples, to imitate waves. There must be a parting from ear to ear, but the hair behind the forehead must be brushed back and tied to the crown with the black parting. There is a central parting. There is an arrangement of short curls brought into a bun at each side by means of a side comb, or there may be a group of curls to right and left of the central parting. These curls were originally called "cumb curls," because they were not allowed to fall but were stiffly arched.

A very dainty little toque, which will probably also do duty as theater bonnet, was composed entirely of ribbon. The hat represented here was made on a foundation of black, from which pointed ribbon ends projected in every possible direction. Pink, yellow and green are the prevailing colors in this particular assortment, and the ribbons were so cleverly arranged by the Parisian milliner that they resembled nothing so much as a tiny section of a gay flower bed.

It is sold in bottles of 50 cents and \$1.00. It is sold in all drug stores and by mail.

OUR OWN STEVE CRANE. Chicago Record: A man climbed a lofty mountain. Gruff and rugged rose the peaks. In rhythmic harmonies silence beat down ruggedly of the chasms. Grim lay the rocks majestic in the grasp of time. High rose the awful horrors of the precipice and across and under it, the out eager for the last kiss of the drying sun.

"Ah, me!" said the man, and he sighed: "What a sublime, grand, lofty thing is the mountain!"

Just then he fell 17,000 feet down a hole and it on a bed of hard rocks. "Wow," said the man, and shook his hat.

But the mountain was silent.

FOR ABUSE OF ALCOHOL. USE HORSFORD'S ACID PHOSPHATE.

Dr. W. E. Crane, Mitchell, South Dakota, says: "It has proven almost specific for this disorder; it checks the vomiting, restores the appetite, and allays the four of impending disaster that is so common to heavy drinkers."

TROOPS REVIEWED. Brilliant Scene at the Presidio Near Frisco.

San Francisco, March 12.—There was a brilliant scene at the Presidio this afternoon when Col. George H. Burton, representing the secretary of war, inspected the troops, batteries and companies of the military service. The inspection was a most impressive one, and the troops were in the best of condition.
